Title: State Laboratory Capacity and Capability, EPA ICR Number 2110.01. This is a request for a new information collection, and a notification that EPA will seek an emergency clearance from OMB to begin collecting information.

Abstract: In early 2003, EPA completed a compendium of Laboratory Capability and Capacity. The compendium, available to EPA's emergency response community and select managers and staff, is contained in a data base that allows queries based on analytical capabilities, instrumentation, special handling abilities and location. This useful information was developed through a survey issued to EPA's thirty-four fixed and two mobile laboratories. EPA has been asked by the Department of Homeland Security to pursue development of subsequent phases of this compendium to collect identical information from State laboratory sources. When complete, this information will result in a resource available to select State, local and federal entities involved in response to terrorist incidents involving unknown or suspected chemical, biological or radiological agents. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The one time public reporting and recordkeeping burden for this collection of information is estimated to average 4.0 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 50 States.

Estimated Number of Respondents: 100.

Frequency of Response: Two per State.

Estimated Total Annual Hour Burden: 400 hours.

Estimated Total Annual Cost: \$30,000; includes \$6,000 O&M costs and \$0 capital and startup costs.

E. Ramona Trovato,

Deputy Assistant Administrator, Office of Environmental Information.

II. What Action is the Agency Taking?

Under Contract number 68-W-03-034 Optimus Corporation and Centerscope Technologies, of 8601 Georgia Avenue, Silver Spring, MD will assist EPA in processing 12(b) export notices submitted under sections 4, 5, 6, 7, and 12 of TSCA and issuing notification letters to foreign governments.

In accordance with 40 CFR 2.306(j), EPA has determined that under Contract number 68-W-03-034, Optimus Corporation and Centerscope Technologies will require access to CBI submitted to EPA under sections 4, 5, 6, 7, and 12 of TSCA, to perform successfully the duties specified under the contract.

Optimus Corporation and Centerscope Technologies personnel were given access to information submitted to EPA under sections 4, 5, 6, 7, and 12 of TSCA. Some of the information may be claimed or determined to be CBI.

Optimus Corporation and Centerscope Technologies were granted a waiver March 31, 2003. This waiver was necessary to allow Optimus Corporation and Centerscope Technologies to assist the Office of Pollution Prevention and Toxics (OPPT) in the activities listed above.

EPA is issuing this notice to inform all submitters of information under sections 4, 5, 6, 7, and 12 of TSCA, that the Agency may provide Optimus Corporation and Centerscope Technologies access to these CBI materials on a need-to-know basis only. All access to TSCA CBI under this contract will take place at EPA Headquarters and Optimus Corporation's site at 801 Roeder Road, Suite 600, Silver Spring, MD. However, access will not occur at Optimus' Silver Spring, MD facility until after it has been inspected and approved for the storage of TSCA CBI.

Optimus Corporation and Centerscope Technologies personnel will be required to adhere to all provisions of EPA's "TSCA Confidential Business Information Security Manual."

Clearance for access to TSCA CBI under Contract number 68-W-03-034 may continue until March 31, 2008.

Optimus Corporation and Centerscope Technologies personnel will be required

to sign nondisclosure agreements and will be briefed on appropriate security procedures before they are permitted access to TSCA CBI.
