DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 042103B]

South Atlantic Fishery Management Council; Technical Workshops

AGENCY: NOAA Fisheries (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of workshop series to address Essential Fish Habitat (EFH), Fishery Ecosystem Plans (FEP) and Ecosystem Models.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a series of technical workshops involving selected members from its Habitat and Environmental Protection Advisory Panel, Coral Advisory Panel and invited scientists with background in specific habitat type or species utilization patterns.

DATES: The workshops will be held during the months of May, July, August, September and October. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The workshop series will be held in St. Petersburg, FL, Beaufort, NC, and Charleston, SC. See **SUPPLEMENTARY INFORMATION** for specific locations.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer, South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, SC, 29407; telephone: (843) 571-4366 or (866) SAFMC-10; fax: (843) 769-4520.

SUPPLEMENTARY INFORMATION: The workshops will take place: May 19-21, 2003, May 21-23, 2003, July 1-2, 2003, August 19-21, 2003, September 23-25, 2003 and October 20-22, 2003.

The workshop process will initiate development of a South Atlantic Council Fishery Ecosystem Plan (FEP) which presents fishery and resource

information for fisheries in the South Atlantic Bight ecosystem in context. The workshop processes will integrate two directives in the Final Rule for Essential Fish Habitat: (1) Review and update Essential Fish Habitat information, and (2) Consider ecosystem-based management through development of a Fishery Ecosystem Plan for the South Atlantic Region.

The Council recognizes the scope of the significant task necessary to meet the new essential fish habitat mandates and directive to begin evaluating ecosystem-based management through the development of a Fishery Ecosystem Plan (FEP) and is again calling upon the Habitat Advisory Panel members and other technical experts involved in the previous Habitat Plan development process to serve as or identify appropriate experts to function on a quasi-plan development team for this task. The Habitat and Coral Advisory Panel are scheduled to meet this fall and will provide additional guidance on the workshop process and ecosystem management.

A Final EFH Rule was published on January 17, 2002 replacing the interim Final Rule of December 19, 1997 on which the original EFH and EFH-Habitat Area of Particular Concern (HAPC) designations were made. The Councils have, pursuant to the Final EFH Rule, been directed to update EFH and EFH-HAPC information and designations; in addition, pursuant to revisions to NOAA General Counsel interpretation of the National Environmental Policy Act the Councils will be required to update all Environmental Impact Statements for all Federal Fishery Management Plans under their jurisdiction. Information compiled during this process will further facilitate meeting both the EFH and the NEPA mandate. As was done with the original Habitat Plan, a series of technical workshops will be conducted by Council habitat staff, in cooperation with NOAA Beaufort Laboratory, NMFS Southeast Fishery Science Center Miami Laboratory, NMFS Southeast Regional Office personnel and invited participants. Workshops are intended to build on a review of existing information presented in the Habitat Plan, and focus on updating information pursuant to the new EFH Rule. This effort will begin the integration of comprehensive details of habitat distribution and characterization, the biology of managed species including their biological role in and the characteristics of the food web they exist in.

BILLING CODE 3510–22–S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Denial of Commercial Availability Request Under the African Growth and Opportunity Act (AGOA) and the United States - Caribbean Basin Trade Partnership Act (CBTPA)

April 22, 2003.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Denial of the petition alleging that lastol elastic yarn, for use in apparel articles, cannot be supplied by the domestic industry in commercial quantities in a timely manner.

SUMMARY: On February 21, 2003, the Chairman of CITA received a request from the Dow Chemical Company alleging that lastol elastic yarn, classified under items 5402.49.9005 and 5404.10.8005 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that apparel articles from such yarns, or from U.S.-formed fabric containing such yarns be eligible for preferential treatment under the AGOA and the CBTPA. Based on currently available information, CITA has determined that a substitutable product can be supplied by the

domestic industry in commercial quantities in a timely manner and therefore denies the request.

FOR FURTHER INFORMATION CONTACT: Janet E. Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 112 (b)(5)(B) of the AGOA, Section 213(b)(2)(A)(v)(II) of the Caribbean Basin Economic Recovery Act, as added by Section 211(a) of the CBTPA; Sections 1 and 6 of Executive Order No. 13191 of January 17, 2001.

BACKGROUND:

The AGOA and the CBTPA provide for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns or fabrics formed in the United States or a beneficiary country. The AGOA and the CBTPA also provide for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary countries from fabric or yarn that is not formed in the United States or a beneficiary country, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the AGOA and the CBTPA. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On February 21, 2003, the Chairman of CITA received a request from the Dow Chemical Company alleging that lastol elastic yarn, which is a crosslinked, heat resistant elastic yarn having elevated temperature elasticity comprising a cured, irradiated or crosslinked ethylene polymer, classified under items 5402.49.9005 and 5404.10.8005 of the HTSUS, for use in apparel articles, cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that apparel articles from such yarns, or from U.S.-formed fabric containing such yarns, that are both cut (or knit-to shape) and sewn or otherwise assembled in one or more beneficiary countries be eligible for preferential treatment under the AGOA or the CBTPA.

On March 3, 2003, CITA solicited public comments regarding this request (68 FR 9997), particularly with respect to whether these fabrics can be supplied
