Subsistence Management Regulations for Public Lands in Alaska

AGENCIES: Forest Service, Agriculture; Fish and Wildlife Service, Interior.

ACTION: Affirmation of direct final rule.

SUMMARY: We, the U.S. Forest Service and U.S. Fish and Wildlife Service, are adopting, without change, a direct final rule that made two minor changes to the regulations governing subsistence use of wildlife in Alaska. Because we received no adverse comments on the direct final rule, it is now effective.

DATES: The direct final rule became effective April 21, 2003.

SUPPLEMENTARY INFORMATION:

Background

The regulations at 36 CFR part 242 and 50 CFR part 100 (referred to below as “the regulations”), authorized by Title VIII of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101–3126), implement the Federal Subsistence Management Program on public lands in Alaska. The Department of Agriculture’s U.S. Forest Service and the Department of the Interior’s U.S.

Fish and Wildlife Service (referred to below as “the Departments”) jointly administer the regulations, which are identical in 36 CFR part 242 and 50 CFR part 100.

On May 7, 2002, the Departments published in the *Federal Register* a final rule that made changes to the regulations (67 FR 30559). On February 18, 2003, the Departments published a direct final rule (68 FR 7703) that addressed two issues that arose after publication of the May 7, 2002, final rule: We clarified how old a person must be to receive a Federal Subsistence Registration Permit or Federal Designated Harvester Permit and removed a requirement that Regional Councils must have an odd number of members. These changes clarified language that had been unclear and brought the regulations into accord with current policies. We published these changes as a direct final rule because we believed these changes to be noncontroversial and anticipated receiving no adverse public comment on them.

We did not receive any comments on the direct final rule during the public comment period provided. Therefore, the direct final rule became effective April 21, 2003, as specified in that rule.

Revisions to the California State Implementation Plan, Lake County Air Quality Control District and San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the Lake County Air Quality Management District (LCAQMD) and San Diego County Air Pollution Control District (SDCAPCD) portions of the California State Implementation Plan (SIP). We are approving the local rules that regulate this emission source under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: This rule is effective on June 30, 2003, without further notice, unless EPA receives adverse comments by May 30, 2003. If we receive such comments, we will publish a timely withdrawal in the *Federal Register* to notify the public that this rule will not take effect.

B. Are There Other Versions of These Rules?

We approved into the SIP a version of LCAQMD Section 436 on October 24, 1980 (45 FR 70448). We approved a version of LCAQMD Sections 431.7, 432.5, 436.5, and 442 on October 23, 1989 (54 FR 43173). We approved a version of LCAQMD Sections 226.5, 431.5, and 433 on June 14, 2002 (67 FR 40867).

We approved into the SIP versions of submitted SDCAPCD Rule 101 as SDCAPCD Rules 105, 106, 107, 110, 111, and 112 on May 11, 1977 (42 FR 23805), as SDCAPCD Rule 104 on August 31, 1978 (43 FR 38826), as SDCAPCD Rule 109 on July 6, 1982 (47 FR 29233), and as SDCAPCD Rules 101, 102, 103, and 108 on March 11, 1998 (63 FR 11831). These SIP versions are all submitted for recision and should be replaced by submitted SDCAPCD Rule 101.

C. What Is the Purpose of the Submitted Rule Revisions?

The purpose of the submitted LCAQMD sections is to amend and

adopt sections that minimize public exposure from residential waste burning, improve air quality, and maximize fire safety while minimizing the health consequence and demand on resources of affected agencies.

One purpose of the submitted SDAPCD Rule 101 is to consolidate SIP Rules 101 through 112 into one rule. Other purposes are to increase stringency and to meet new California open burning guidelines.

II. EPA’s Evaluation and Action

A. How Is EPA Evaluating the Rules?

Generally, SIP rules must be enforceable (see section 110(a) of the CAA) and must not relax existing requirements (see sections 110(l) and 193). Section 189(a) of the CAA requires moderate PM-10 nonattainment areas with significant PM-10 sources to adopt reasonably available control measures (RACM), including reasonably available control technology (RACT). RACM/RACT is not required for attainment areas unless required by a maintenance attainment plan. LCAQMD and SDCAPCD regulate a PM-10 attainment area and fulfilling RACM/RACT is not required. See 40 CFR 81.305.

The following guidance documents were used for reference:

- *Requirements for Preparation, Adoption, and Submittal of*

Implementation Plans, U.S. EPA, 40 CFR part 51.

- *General Preamble Appendix C3—Prescribed Burning Control Measures* (57 FR 18072, April 28, 1992).

- *PM-10 Guideline Document*, EPA-452/R-93-008.

B. Do the Rules Meet the Evaluation Criteria?

We believe the submitted rules and recisions are consistent with the relevant policy and guidance regarding enforceability, SIP relaxations, and RACM/RACT requirements and should be approved. The TSDs have more information on our evaluation.

C. Public Comment and Final Action

As authorized in section 110(k)(3) and 110(k)(6) of the CAA, EPA is fully approving the submitted rules and rule recisions because we believe they fulfill all relevant requirements. We do not think anyone will object to this, so we are finalizing the approval without proposing it in advance. However, in the Proposed Rules section of the April 16, 2003 **Federal Register** (68 FR 18581), we proposed approval of the same submitted rules. If we receive adverse comments by May 30, 2003, we will publish a timely withdrawal in the **Federal Register** to notify the public that the direct final approval will not

take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on June 30, 2003. This will incorporate these rules into the federally-enforceable SIP and remove the rescinded rules from the SIP.

Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this direct final rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

III. Background Information

A. Why Were These Rules Submitted?

PM-10 harms human health and the environment. Section 110(a) of the CAA requires states to submit regulations that control PM-10 emissions. Table 2 lists some of the national milestones leading to the submittal of local agency PM-10 rules.

TABLE 2.—PM-10 NONATTAINMENT MILESTONES

Date	Event
March 3, 1978	EPA promulgated a list of total suspended particulate (TSP) nonattainment areas under the Clean Air Act, as amended in 1977. 43 FR 8964; 40 CFR 81.305.
July 1, 1987	EPA replaced the TSP standards with new PM standards applying only up to 10 microns in diameter (PM-10). 52 FR 24672.
November 15, 1990	Clean Air Act Amendments of 1990 were enacted, Pub. L. 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671g.
November 15, 1990	PM-10 areas meeting the qualifications of section 107(d)(4)(B) of the CAA were designated nonattainment by operation of law and classified as moderate pursuant to section 188(a). States are required by section 110(a) to submit rules regulating PM-10 emissions in order to achieve the attainment dates specified in section 188(c).

IV. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have

substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045, “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides

that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 30, 2003. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* section 307(b)(2).
