Subsistence Management Regulations for Public Lands in Alaska

AGENCIES: Forest Service, Agriculture; Fish and Wildlife Service, Interior.

ACTION: Affirmation of direct final rule.

SUMMARY: We, the U.S. Forest Service and U.S. Fish and Wildlife Service, are adopting, without change, a direct final rule that made two minor changes to the regulations governing subsistence use of wildlife in Alaska. Because we received no adverse comments on the direct final rule, it is now effective.

DATES: The direct final rule became effective April 21, 2003.

SUPPLEMENTARY INFORMATION:

Background

The regulations at 36 CFR part 242 and 50 CFR part 100 (referred to below as “the regulations”), authorized by Title VIII of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101–3126), implement the Federal Subsistence Management Program on public lands in Alaska. The Department of Agriculture’s U.S. Forest Service and the Department of the Interior’s U.S.

Fish and Wildlife Service (referred to below as “the Departments”) jointly administer the regulations, which are identical in 36 CFR part 242 and 50 CFR part 100.

On May 7, 2002, the Departments published in the *Federal Register* a final rule that made changes to the regulations (67 FR 30559). On February 18, 2003, the Departments published a direct final rule (68 FR 7703) that addressed two issues that arose after publication of the May 7, 2002, final rule: We clarified how old a person must be to receive a Federal Subsistence Registration Permit or Federal Designated Harvester Permit and removed a requirement that Regional Councils must have an odd number of members. These changes clarified language that had been unclear and brought the regulations into accord with current policies. We published these changes as a direct final rule because we believed these changes to be noncontroversial and anticipated receiving no adverse public comment on them.

We did not receive any comments on the direct final rule during the public comment period provided. Therefore, the direct final rule became effective April 21, 2003, as specified in that rule.

Revisions to the California State Implementation Plan, Lake County Air Quality Control District and San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the Lake County Air Quality Management District (LCAQMD) and San Diego County Air Pollution Control District (SDCAPCD) portions of the California State Implementation Plan (SIP). The LCAQMD and SDCAPCD revisions concern the emission of particulate matter (PM–10) from open burning. We are approving the local rules that regulate this emission source under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: This rule is effective on June 30, 2003, without further notice, unless EPA receives adverse comments by May 30, 2003. If we receive such comments, we will publish a timely withdrawal in the *Federal Register* to notify the public that this rule will not take effect.
