SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) proposes to collect information about vessel expenses and earnings in the Gulf of Mexico reef fish and coastal pelagics (mackerels) fisheries. The information will be used to conduct economic analyses that will improve

fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Steven Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. These data will be collected in conjunction with catch and effort data already being collected in this fishery as part of its logbook program, and will be used to assess how fishermen will be impacted by and respond to regulations likely to be considered by fishery managers.

II. Method of Collection

Owners of selected vessels with Federal commercial permits in the Gulf of Mexico reef fish and coastal pelagics fisheries will be required to report information about trip costs, input usage, input prices, and dockside prices as part of the logbook reporting requirements in this fishery. In addition, these vessel owners will be required to complete and submit by mail a separate form about annual fixed cost information such as expenditures for repair and maintenance, gear purchase and repair, fishing licenses and permits, insurance, dock fees, repayment on boat and business loans, office expenses, etc.
