Permit 1427

The Oregon Department of Environmental Quality (ODEQ) in Eugene, OR is requesting a 5-year permit to annually take adult and juvenile threatened LCR chinook salmon, adult and juvenile threatened UWR chinook salmon, adult and juvenile threatened LCR steelhead and adult and juvenile threatened UWR steelhead associated with a study in the Willamette River, OR. The ODEQ proposes to capture (using boat electrofishing), count, and release listed salmonids.

The objectives of the study are to (1) describe the relationship between mercury in fish tissue and in the water column in order to develop a site-specific bioaccumulation factor, (2) describe the relationship between methylmercury in water and total mercury in water and sediment, and (3) begin to identify and quantify mercury sources and loadings in the Willamette River system. The study is designed to fulfill the requirement mandated by the Federal Clean Water Act and will benefit listed fish by helping reduce mercury loading in the Willamette River system. The ODEQ does not intend to kill any of the listed fish being captured, but a small percentage may die as an unintended result of the research activities.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the applications, associated documents, and comments submitted to determine whether the applications meet the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30 day comment period. NMFS will publish notice of its final actions in the **Federal Register**.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
