*Description:* Prohibited Transaction Exemption 2002-12 (**Federal Register**/Vol. 67, No. 29/Tuesday, February 12, 2002) exempts certain transactions that would be prohibited under the Employee Retirement Income Security Act of 1974 (ERISA) and the Federal Employee's Retirement System Act.

In order for the Department to grant an exemption for a transaction or class of transactions that would otherwise be impermissible under ERISA, the statute requires the Department to make a finding that the exemption is administratively feasible, in the interest of the plan and its participants and beneficiaries, and protective of the rights of the participants and beneficiaries. To insure that investment managers have complied with the requirements of the exemption, the Department has included in the exemption certain recordkeeping and disclosure obligations that are designed to safeguard plan assets by periodically providing information to independent plan fiduciaries about changes in the cross-trading program. Initially, where plans are not invested in Funds, investment managers must have authorization from a plan fiduciary to invest plan assets in Funds. For plans that are currently invested in Funds, certain notices must be provided that describe the cross-trading program, update changes in Funds, and provide the plan with an opportunity to withdraw from the program. For Large Accounts, information must be provided by the investment manager about the results of transactions involved in a portfolio-restructuring program.

Finally, the exemption requires that Funds and Large Accounts maintain for a period of 6 years the records necessary to enable certain persons authorized by the exemption (e.g., Department representatives or contributing employers, to determine whether the conditions of the exemption have been met.)

The exemption affects participants and beneficiaries of employee benefit plans whose assets are invested in Index or Model-Driven funds, large pension plans and other large accounts involved in portfolio restructuring programs, as

well as the Funds and their investment managers.
