Federal Railroad Administration

[Docket Number FRA-2002-12509]

Notice of Public Hearing; Burlington Northern and Santa Fe Railway

The Burlington Northern and Santa Fe Railway has petitioned the Federal Railroad Administration (FRA) seeking approval of the proposed discontinuance and removal of the traffic control system, on the main tracks between milepost 437.2, near Sapulpa, Oklahoma and milepost 579.3, Mill Creek, Oklahoma, on the Texas Division, Creek Subdivision, a distance of approximately 142 miles, associated with the implementation of Track Warrant Control to govern train movements. This block signal application proceeding is identified as Docket No. FRA-2002-12509.

The FRA has issued a public notice seeking comments of interested parties and has conducted its own field investigation in this matter. After examining the carrier's proposal, letters of protest, and the field report, the FRA has determined that a public hearing is necessary before a final decision is made on this proposal.
