40 CFR Part 63

RIN 2060–AK53

National Emission Standards for Hazardous Air Pollutants for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite, and Stand-Alone Semichemical Pulp Mills

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting administrative amendments; change in effective date.

SUMMARY: On February 18, 2003, EPA published a direct final rule on the national emission standards for hazardous air pollutants (NESHAP) for chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills (68 FR 7706). The effective date of that direct final rule is May 19, 2003, and remain unchanged, except the amendment adding Incorporation by Reference (IBR) material which must, for administrative purposes, become effective prior to May 19, 2003. This correction moves up the effective date for that amendment, which affects the centralized IBR section for 40 CFR part 63. In addition, the IBR amendment included in the February 18 direct final rule added a new IBR addressing test method ANSI/ASME PTC 19.10–1981, Flue and Exhaust Gas Analyses [Part 10, Instruments and Apparatus]; thus the effective date of this IBR material must also match the effective date of the centralized IBR section. This correction moves up the effective date in 40 CFR 63.865(b)(3) and 40 CFR 63.865(b)(5)(iii).

FOR FURTHER INFORMATION CONTACT: For information regarding the administration of the IBR, contact Ms. Janet Eck, Coatings and Consumer Products Group, Emission Standards Division (C539–03), U.S. EPA, Research Triangle Park, North Carolina 27711, telephone number (919) 541–7946, facsimile number (919) 541–5689, electronic mail (e-mail) address: eck.janet@epa.gov. All other inquiries regarding the NESHAP for chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills should be addressed to Mr. Jeff Telander, Minerals and Inorganic Chemicals Group, Emission Standards Division (C504–05), U.S. EPA, Research Triangle Park, North Carolina 27711, telephone number (919) 541–5427, facsimile number (919) 541–5600, e-mail address: telander.jeff@epa.gov.

SUPPLEMENTARY INFORMATION: An electronic copy of today’s notice will be available on the Worldwide Web through the Technology Transfer Network (TTN). Following the Assistant Administrator’s signature, a copy of this notice will be posted on the TTN’s policy and guidance page for newly proposed or promulgated rules at http://www.epa.gov/ttn/oarpg. In addition, an electronic version of all of the above mentioned promulgated NESHAP is currently available on the TTN at http://www.epa.gov/ttn/oarpg/new.html. The TTN provides information and technology exchange in various areas of air pollution control. If more information regarding the TTN is needed, call the TTN HELP line at (919) 541–5384.

Robert Brenner,

Acting Assistant Administrator for Air and Radiation.

Hazardous Materials: Requirements for Maintenance, Requalification, Repair and Use of DOT Specification Cylinders; Response to Appeals and Extension of Compliance Dates

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule; response to appeals.

SUMMARY: On August 8, 2002, RSPA published a final rule under Docket No. RSPA–01–10373 (HM–220D) amending the requirements of the Hazardous Materials Regulations applicable to the maintenance, requalification, repair, and use of DOT specification cylinders. The revisions simplified the regulations, responded to petitions for rulemaking, addressed recommendations of the National Transportation Safety Board, and enhanced the safe transportation of hazardous materials in cylinders. In response to appeals submitted by persons affected by the August 8, 2002 final rule, this final rule amends certain requirements, extends certain compliance dates, and makes minor editorial corrections.

DATES: Effective Date: This rule is effective June 9, 2003. Compliance Date: Delayed compliance dates for certain regulatory provisions are set forth in the regulatory text.

SUPPLEMENTARY INFORMATION:

I. Background

On August 8, 2002, the Research and Special Programs Administration (RSPA, we) published a final rule under Docket No. 01–10373 (HM–220D) (67 FR 51625) amending the requirements of the Hazardous Materials Regulations (HMR; 49 CFR parts 171–180) applicable to the maintenance, requalification, repair, and use of DOT specification cylinders.

II. Delayed Compliance Dates
