BILLING CODE 4210-33-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[TN-248-200327(b); FRL-7498-7]

Approval and Promulgation of Implementation Plan: Revisions to Tennessee State Implementation Plan: Transportation Conformity Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Tennessee State Implementation Plan (SIP) submitted on March 19, 2002, that contains transportation conformity rules. If EPA approves this transportation conformity SIP revision, the State will be able to implement and enforce the Federal transportation conformity requirements at the State level per EPA regulations—Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. of the Federal Transit Laws. EPA's proposed action would streamline the conformity process and allow direct consultation among agencies at the local levels. EPA's

proposed approval is limited to transportation conformity.

In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before June 16, 2003.

ADDRESSES: All comments should be addressed to: Kelly Sheckler at the EPA, Region 4 Air Planning Branch, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960.

Copies of documents relative to this action are available at the following address for inspection during normal business hours:

[DA 03-1534, MB Docket No. 03-116]

Radio Broadcasting Services; Archer City, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comment on a Commission proposal to substitute Channel 248C2 for Channel 248C1 at Archer City, Texas. As a result, the allotment at Archer City, Texas would conform with the outstanding Station KRZB construction permit. The coordinates for the Channel 248C2 allotment of Archer City, Texas, would be 33-51-40 and 98-38-52.

DATES: Comments must be filed on or before June 30, 2003, and reply comments on or before July 15, 2003.

ADDRESSES: Federal Communications Commission, 445 Twelfth Street, SW., Washington, DC. 20554.

FOR FURTHER INFORMATION CONTACT: Robert Hayne, Media Bureau, (202) 418-2177.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MB Docket No. 03-116, adopted May 7, 2003, and released May 8, 2003. The full text of this Commission decision is available for inspection and copying during normal business hours in the Commission's Reference Center 445 Twelfth Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's duplicating contractor, Qualex International Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC, 20554, telephone 202-863-2893, facsimile 202-863-2898, or via e-mail *qualexint@aol.com*.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

List of Subjects in 47 CFR Part 73

National Oceanic and Atmospheric Administration

50 CFR Part 660

[I.D. 050703A]

Fisheries off the West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Amending the Notice to Prepare a Programmatic Environmental Impact Statement for Fishing Conducted Under the Pacific Coast Groundfish Fishery Management Plan (FMP)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to revise the scope of a Programmatic Environmental Impact Statement (PEIS); request for written comments.

SUMMARY: On April 10, 2001, NOAA announced in the **Federal Register** its intention to prepare a PEIS, in accordance with the National Environmental Policy Act (NEPA), to assess the impacts of Federal management of the Pacific Coast groundfish fishery on the human environment. The proposed scope of the PEIS analysis included many issues related to the conduct of the fishery, including the effects of the groundfish fishery on essential fish habitat (EFH). As a result of public comments received during the scoping process, NMFS enhanced the description of the purpose and need for NMFS' action, clearly identified significant issues related to the proposed action, and a distinction between proposed actions related to EFH and the broader management program for Pacific groundfish. To avoid confusion as a result of this distinction, NMFS decided to prepare a separate EIS to address EFH issues. Subsequent to that decision, the Pacific Fishery Management Council (Council) and NMFS have taken a number of management actions to prevent overfishing and to rebuild overfished groundfish stocks. In addition, a number of court cases have affected the fishery regulatory processes and have required additional analysis of environmental impacts of the Federal groundfish

fishery management program. NMFS believes these events and activities have influenced the purpose of and need for action and is considering revision to the scope of the alternatives and analysis. The intent of this document is to describe the rationale for revising the purpose and need for action and the scope of the analysis.

DATES: Written comments will be accepted on or before June 13, 2003. A public scoping meeting is scheduled for June 16, 2003 (see **SUPPLEMENTARY INFORMATION**).

ADDRESSES: Written comments on suggested alternatives and potential impacts, and any other issues or concerns related to the proposed action which should be analyzed in detail in the PEIS, as described in this scoping notice, should be sent to Robert Lohn, Administrator, Northwest Region, NMFS, 7600 Sand Point Way N.E., BIN C15700, Bldg. 1, Seattle, WA 98115 0070. Comments also may be sent via facsimile (fax) to 206 526 6736. Comments will not be accepted if submitted via e-mail or Internet.

Background

In June 2001, NMFS concluded the initial scoping process for a PEIS on the Federal management of the Pacific Coast Groundfish Fishery and published a summary report. Scoping was initiated on April 10, 2001, through publication of a Notice of Intent (66 FR 18586). The report was initially published on the NMFS, Northwest Region website in August 2001 to provide a summary of all comments received and key issues identified during the scoping process. In February 2002 NMFS clarified the purpose and need for Federal action and revised the scope of analysis, which resulted in the preparation of two separate EISs. The PEIS was intended to be a broad analysis of the Federal fishery management program, and the additional EIS was specific to the designation of EFH and associated management measures, including measures to reduce effects of fishing on EFH. This separation was intended to improve public understanding and participation in the NEPA process, make
