

mail, it must submit comments on this proposed rule according to the procedures outlined above.

SUPPLEMENTARY INFORMATION: Under section 111(d) of the Clean Air Act, EPA published regulations at 40 CFR part 60, subpart B which require states to submit control plans to control emissions of designated pollutants from designated facilities. In the event that a state does not have a particular designated facility located within its boundaries, EPA requires that a state submit a negative declaration in lieu of a control plan.

The Vermont DEC submitted the negative declaration to satisfy the requirements of 40 CFR part 60, subpart B. In the Final Rules Section of this **Federal Register**, EPA is approving the Vermont negative declaration as a direct final rule without a prior proposal. EPA is doing this because the Agency views this action as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA does not receive any significant, material, and adverse comments to this action, then the approval will become final without further proceedings. If EPA receives adverse comments, we will withdraw the direct final rule and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not begin a second comment period.

Notice. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR Part 300, the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Utah, through the Utah Department of Environmental Quality (UDEQ), have determined that all appropriate response actions under CERCLA, other than five-year reviews and operation & maintenance, have been completed at the Site. However, this deletion does not preclude future actions under Superfund if determined necessary by EPA.

In the "Rules and Regulations" section of today's **Federal Register**, EPA is publishing a Direct Final Notice of Deletion of the Rose Park Sludge Pit Superfund Site without prior notice of intent to delete because EPA views this as a non-controversial action. EPA has explained its reasons for this deletion in the preamble to the Direct Final Notice of Deletion. If EPA receives no significant adverse comment(s) on the Direct Final Notice of Deletion, EPA will not take further action on this Notice of Intent to Delete and deletion of the Site will proceed. If EPA receives significant adverse comment(s), EPA will withdraw the Direct Final Notice of Deletion and it will not take effect. EPA will, as appropriate, address all public comments in a subsequent final deletion notice based on this Notice of Intent to Delete. EPA will not institute a second comment period on this Notice of Intent to Delete. Any parties interested in commenting must do so within the time frame noted below.
