OMB Control Number, if applicable: 2502–0044.

Description of the need for the information and proposed use:

Contractors use the form HUD–2328 to establish a schedule of values of construction items on which the monthly advances or mortgage proceeds are based. Contractors use the form HUD–92330–A to convey actual construction costs in a standardized format of cost certification. In addition to assuring that the mortgage proceeds have not been used for purposes other than construction costs, HUD–92330–A further protects the interest of the Department by directly monitoring the accuracy of the itemized trades on form HUD–2328. This form also serves as project data to keep Field Office cost data banks and cost estimates current and accurate. HUD–2205–A is used to certify the actual costs of acquisition or refinancing of projects insured under the section 223(f) program.

Agency form numbers, if applicable: HUD–2205–A, HUD–2328, and HUD–92330–A.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of burden hours needed to prepare the information collection is 10,200; the number of respondents is 925 generating approximately 925 annual responses; the frequency of response is on occasion; and the estimated time needed to prepare the response varies from 4 hours to 8 hours.

Status of the proposed information collection: Extension of a currently approved collection.
