

§ 40.145(a)(1)), you must do so immediately.

(2) Otherwise (*i.e.*, if the creatinine concentration of the dilute specimen is greater than 5 mg/dL), you may, but are not required to, direct the employee to take another test immediately.

(i) Such recollections must not be collected under direct observation, unless there is another basis for use of direct observation (see § 40.67 (b) and (c)).

(ii) You must treat all employees the same for this purpose. For example, you must not retest some employees and not others. You may, however, establish different policies for different types of tests (*e.g.*, conduct retests in pre-employment situations, but not in random test situations). You must inform your employees in advance of your decisions on these matters.

(c) The following provisions apply to all tests you direct an employee to take under paragraph (b) of this section:

(1) You must ensure that the employee is given the minimum possible advance notice that he or she must go to the collection site;

(2) You must treat the result of the test you directed the employee to take under paragraph (b) of this section—and not a prior test—as the test result of record, on which you rely for purposes of this part;

(3) If the result of the test you directed the employee to take under paragraph (b) of this section is also negative and dilute, you are not permitted to make the employee take an additional test because the result was dilute. Provided, however, that if the MRO directs you to conduct a recollection under direct observation under paragraph (b)(1) of this section, you must immediately do so.

(4) If the employee declines to take a test you directed him or her to take under paragraph (b) of this section, the employee has refused the test for purposes of this part and DOT agency regulations.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On March 25, 2003, the Research and Special Programs Administration (RSPA, we) published a final rule to enhance the security of hazardous materials transported in commerce (68 FR 14510). In this final rule, shippers and carriers of certain highly hazardous materials must develop and implement security plans. In addition, all shippers and carriers of hazardous materials must assure that their employee training includes a security component. The effective date of this final rule is March 25, 2003.

On April 30, 2003, OMB approved information collection for the development of and maintenance of security plans, OMB No. 2137-0612, "Hazardous Materials Security Plans", until April 30, 2006. Because OMB approved the information collection after publication of the March 25, 2003 final rule, we are announcing the OMB approval and incorporating this new information collection approval into § 171.6, "Control numbers under the Paperwork Reduction Act.", under OMB Control No 2137-0612.

OMB regulations (5 CFR 1320) implementing provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (*see* 5 CFR 1320.8(s)) and specify that no person is required to respond to an information collection unless it displays a valid OMB control number. In accordance with the Paperwork Reduction Act of 1995, RSPA has received OMB approval of the following ICR and § 171.6(b)(2) is revised by incorporating the following information collection:

*OMB Control Number:* 2137-0612.

*Title:* Hazardous Materials Security Plans.

This information collection approval expires on April 30, 2006. This information collection request was approved by OMB on April 30, 2003.

## II. Summary of Regulatory Changes

### Section 171.6

We are revising the table in paragraph (b)(2) to incorporate a new information collection, OMB No. 2137-0612, "Hazardous Materials Security Plans," and the affected sections, which include a new part 172, subpart I—Security Plans and §§ 172.800, 172.802, and 172.804.

## III. Rulemaking Analyses and Notices

### A. Executive Order 12866 and DOT Regulatory Policies and Procedures

This final rule is not considered a significant regulatory action under section 3(f) of Executive Order 12866 and, therefore, was not reviewed by the Office of Management and Budget. This rule is not significant under the Regulatory Policies and Procedures of the Department of Transportation (44 FR 11034). Because of the minimal economic impact of this rule, preparation of a regulatory impact analysis or a regulatory evaluation is not warranted.

**B. Executive Order 13132**

This final rule has been analyzed in accordance with the principles and criteria in Executive Order 13132 ("Federalism"). This final rule does not propose any regulation that: (1) Has substantial direct effects on the States, the relationship between the national government and the States, or the distribution of power and responsibilities among the various levels of government; (2) imposes substantial direct compliance costs on State and local governments; or (3) preempts state law.

RSPA is not aware of any State, local, or Indian tribe requirements that would be preempted by correcting editorial errors and making minor regulatory changes. This final rule does not have sufficient federalism impacts to warrant the preparation of a federalism assessment.

**C. Executive Order 13175**

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13175 ("Consultation and Coordination with Indian Tribal Governments"). Because this rule does not have tribal implications and does not impose substantial direct compliance costs, the funding and consultation requirements of Executive Order 13175 do not apply.

**D. Regulatory Flexibility Act**

I certify that this final rule will not have a significant economic impact on a substantial number of small entities. This rule makes minor editorial changes which will not impose any new requirements on persons subject to the HMR; thus, there are no direct or indirect adverse economic impacts for small units of government, businesses or other organizations.

**E. Unfunded Mandates Reform Act of 1995**

This final rule does not impose unfunded mandates under the Unfunded Mandates Reform Act of 1995. It does not result in costs of \$100 million or more to either State, local, or tribal governments, in the aggregate, or to the private sector, and is the least burdensome alternative that achieves the objective of the rule.

**F. Paperwork Reduction Act**

There are no new information collection requirements in this final rule. This final rule announces the approval of information collection OMB No. 2137-0612, "Hazardous Materials Security Plans," and incorporates this new OMB Control Number, Title, and Affected Sections into the Section 171.6 (b)(2) table in the HMR.

**G. Regulation Identifier Number (RIN)**

A regulation identifier number (RIN) is assigned to each regulatory action

listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross-reference this action with the Unified Agenda.
