

B. Executive Order 13132

This final rule has been analyzed in accordance with the principles and criteria in Executive Order 13132 ("Federalism"). This final rule does not propose any regulation that: (1) Has substantial direct effects on the States, the relationship between the national government and the States, or the distribution of power and responsibilities among the various levels of government; (2) imposes substantial direct compliance costs on State and local governments; or (3) preempts state law.

RSPA is not aware of any State, local, or Indian tribe requirements that would be preempted by correcting editorial errors and making minor regulatory changes. This final rule does not have sufficient federalism impacts to warrant the preparation of a federalism assessment.

C. Executive Order 13175

This final rule has been analyzed in accordance with the principles and criteria contained in Executive Order 13175 ("Consultation and Coordination with Indian Tribal Governments"). Because this rule does not have tribal implications and does not impose substantial direct compliance costs, the funding and consultation requirements of Executive Order 13175 do not apply.

D. Regulatory Flexibility Act

I certify that this final rule will not have a significant economic impact on a substantial number of small entities. This rule makes minor editorial changes which will not impose any new requirements on persons subject to the HMR; thus, there are no direct or indirect adverse economic impacts for small units of government, businesses or other organizations.

E. Unfunded Mandates Reform Act of 1995

This final rule does not impose unfunded mandates under the Unfunded Mandates Reform Act of 1995. It does not result in costs of \$100 million or more to either State, local, or tribal governments, in the aggregate, or to the private sector, and is the least burdensome alternative that achieves the objective of the rule.

F. Paperwork Reduction Act

There are no new information collection requirements in this final rule. This final rule announces the approval of information collection OMB No. 2137-0612, "Hazardous Materials Security Plans," and incorporates this new OMB Control Number, Title, and Affected Sections into the Section 171.6 (b)(2) table in the HMR.

G. Regulation Identifier Number (RIN)

A regulation identifier number (RIN) is assigned to each regulatory action

listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN number contained in the heading of this document can be used to cross-reference this action with the Unified Agenda.

List of Subjects in 49 CFR part 171

Exports, Hazardous materials transportation, Hazardous waste, Imports, Incorporation by reference, Reporting and recordkeeping requirements.

In consideration of the foregoing, 49 CFR Chapter I is amended as follows:

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS

■ 1. The authority citation for part 171 continues to read as follows:

Authority: 49 U.S.C. 5101–5127; 49 CFR 1.53.

■ 2. In § 171.6, the table in paragraph (b)(2) is revised to add a new entry "OMB No. 2137-0612" in numeric order, to read as follows:

§ 171.6 Control numbers under the Paperwork Reduction Act.

* * * * *
(b) * * *

Current OMB Control No.	Title	Title 49 CFR part or section where identified and described
* * *	* * *	* * *
2137-0612	Hazardous Materials Security Plans	Part 172, Subpart I, §§ 172.800, 172.802, 172.804.

Issued in Washington, DC, on May 9, 2003, under authority delegated in 49 CFR part 1.
Samuel G. Bonasso,
Acting Administrator.

BILLING CODE 4910-60-P

DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration
50 CFR Part 679
[Docket No. 021212307-3037-02; I.D. 052103B]
Fisheries of the Exclusive Economic Zone Off Alaska; Yellowfin Sole by Vessels Using Trawl Gear in Bycatch Limitation Zone 1 of the Bering Sea and Aleutian Islands Management Area
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Closure.

SUMMARY: NMFS is closing directed fishing for yellowfin sole by vessels using trawl gear in Bycatch Limitation Zone 1 (Zone 1) of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2003 bycatch allowance of red king crab specified for the trawl yellowfin sole fishery category in Zone 1.
DATES: Effective 1200 hrs, Alaska local time (A.l.t.), May 22, 2003, until 2400 hrs, A.l.t., December 31, 2003.
FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.
SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the

Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2003 red king crab bycatch allowance specified for Zone 1 of the BSAI trawl yellowfin sole fishery category, which is defined at § 679.21(e)(3)(iv)(B)(1), is 16,664 animals (68 FR 9907, March 3, 2003).

In accordance with § 679.21(e)(7)(ii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2003 bycatch allowance of red king crab specified for the trawl yellowfin sole fishery in Zone 1 of the BSAI has been reached. Consequently, the Regional Administrator is closing directed fishing for yellowfin sole by vessels using trawl gear in Zone 1 of the BSAI.

Maximum retainable amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the 2003 bycatch allowance of red king crab specified for the trawl yellowfin sole fishery in Zone 1 of the BSAI, and therefore reduce the public's ability to use and enjoy the fishery resource.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by 50 CFR 679.21 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 21, 2003.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN: 0648-AQ45

Fisheries of the Exclusive Economic Zone Off Alaska; Opening Waters to Pacific Cod Pot Fishing off Cape Barnabas and Caton Island

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule to allow use of pot gear in waters around Cape Barnabas and Caton Island located in the Gulf of Alaska (GOA) for directed fishing for Pacific cod. Waters within 3 nautical miles (nm) of these sites currently are closed to Pacific cod fishing by vessels using pot gear and named on a Federal fisheries permit. This action is necessary to provide consistency between State and Federal fishing restrictions and to relieve a potential burden on the Pacific cod pot gear fishing sector. This final rule is intended to meet the objectives in the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and to further the goals and objectives of the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP).

DATES: Effective June 27, 2003.

ADDRESSES: Copies of the Environmental Assessment/Regulatory Impact Review/Initial Regulatory Flexibility Analysis (EA/RIR/IRFA) prepared for this action and the Final Regulatory Flexibility Analysis (FRFA) may be obtained from NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802-1668, Attn: Lori Durall, or by calling (907) 586-7228.

FOR FURTHER INFORMATION CONTACT: Melanie Brown, (907) 586-7228 or melanie.brown@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS manages the domestic groundfish fisheries of the GOA under the FMP. The North Pacific Fishery Management Council (Council) prepared the FMP under the Magnuson-Stevens Act. Regulations governing the groundfish fisheries of the GOA appear at 50 CFR parts 600 and 679.

The background regarding this action, including the Steller sea lion protection

measures, the Council action, U. S. District Court orders, and the State of Alaska fishery restrictions, is detailed in the preamble to the proposed rule (68 FR 7750, February 18, 2003). This final rule removes restrictions on using pot gear for directed fishing for Pacific cod by vessels named on a Federal groundfish fishing permit in waters within 3 nm of Cape Barnabas and Caton Island. Accordingly, Table 5 to part 679 is revised by removing the 3 nm restriction in column 9 for Caton Island and Cape Barnabas.

No comments were received on the proposed rule.

Changes in the Final Rule From the Proposed Rule

This final rule revises Table 5 to part 679 from the proposed rule. Since the proposed rule was published on February 18, 2003, (68 FR 7750), NMFS published a correction to the Steller sea lion protection measures (SSL correction) at 68 FR 24615, May 08, 2003. The corrections to Table 5 in the SSL correction were not included in the proposed rule for this action. To ensure the corrections to Table 5 from the SSL correction remain in the Code of Federal Regulations, Table 5 in this final rule is revised from the proposed rule to include those revisions that were published in the SSL correction. For details on these revisions, see the preamble to the SSL correction (68 FR 24615).

Classification

The Administrator, Alaska Region, NMFS has determined that removing restrictions on directed fishing for Pacific cod using pot gear within 3 nm of Caton Island and Cape Barnabas is necessary for the conservation and management of the Pacific cod pot gear fishery and is consistent with the Magnuson-Stevens Act and other applicable laws.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

Species listed under the Endangered Species Act (ESA) are present in the action area. This action is not expected to result in increases of Pacific cod harvest beyond those experienced with the opening of the State parallel fishery in these areas. With no additional removals of Pacific cod expected, informal ESA consultation completed on December 11, 2001, concluded that this action is not likely to adversely affect listed species or critical habitat.

NMFS has prepared a FRFA for this action pursuant to Section 604(a) of the Regulatory Flexibility Act. The need for and objectives of this action have been
