SUPPLEMENTARY INFORMATION: Methyl bromide is a chemical pesticide that has been identified as an ozone-depleting substance under the *Montreal Protocol on Substances that Deplete the Ozone Layer* (Protocol) and the Clean Air Act. It is scheduled for complete phaseout by January 1, 2005. The Critical Use Exemption is designed to allow continued production and import of methyl bromide after the phaseout for those uses that demonstrate they have no technically and economically feasible alternatives.

The purpose of the June 16 meeting, and other sessions on the allocation rule, is for the Environmental Protection Agency (EPA) to describe potential options for allocating critical use exemptions authorized by the Parties to the Protocol and to provide a public fora for input on the issues raised by allocation options. At this first session on June 16, EPA will describe possible options to be discussed in the allocation notice and comment rulemaking process. The presentation of possible allocation options will be followed by a lengthy question and answer session. At the subsequent session on August 15, EPA will seek stakeholder comments and statements on the allocation options in either an oral or written format. At this time, EPA is announcing the time

and location for sessions on allocation options to be held in Washington, DC and requests that all interested members of the public R.S.V.P. to the Office of Air and Radiation no later than June 10, 2003, by 5 p.m. for the June 16 session and no later than July 29 at 5 p.m. for the August 15 meeting. EPA will be having additional discussions about the notice and comment rulemaking process for the allocation of critical use exemptions as part of the meetings to be held in locations outside of Washington DC. Further information on the other methyl bromide sessions regarding the CUE application process will be posted to both www.epa.gov/ozone/mbr and www.epa.gov/pesticides. Additional information about the Critical Use Exemption of methyl bromide can be found at <http://www.epa.gov/ozone/mbr>.

Individuals wishing to attend these meetings or participate via conference call are encouraged to R.S.V.P. For those who cannot travel to the Washington DC, sessions on allocation options, there will be 20 conference call lines available on a first come, first served basis. When registering, please give your name, organization, postal (and electronic, if any) mailing address, telephone, and fax number. All statements, questions, and answers will become part of the public record and will be considered in the development of any proposed rule. If there is insufficient interest in a meeting, that particular meeting may be canceled. The Agency bears no responsibility for attendees' decisions to purchase nonrefundable transportation tickets or accommodation reservations.

ACTION: Notice; request for public comment.

SUMMARY: Notice is hereby given that a proposed prospective purchaser agreement associated with the BKK Landfill site, located in West Covina, Los Angeles County, California was

executed by the Agency on May 22, 2003, and concurred upon by the United States Department of Justice on May 13, 2003. The site is an interim status hazardous waste facility. The agreement, between the City of West Covina, California (the "City"), and the United States, is subject to final approval after the comment period. The City plans to purchase approximately 158 acres of the 583-acre BKK hazardous waste facility for redevelopment into sports, recreation and commercial uses. Under this proposed prospective purchaser agreement, the City would be required to implement a workplan for monitoring soil, soil-gas and indoor air at any development involving a park or playground that the City approves on certain specified portions of the property it plans to purchase if the facility owner/operator, the BKK Corporation ("BKK"), fails to do so and if funds are available to the City to implement that workplan. Under a separate agreement being entered into between the City, BKK and Wells Fargo Bank, the City also has certain obligations to oversee BKK's use of the funds obtained from the purchase of the property for compliance with local, State and federal requirements at the BKK Landfill site.

The City is required to grant access to the property to EPA, its authorized officers, employees, representatives, and all other persons performing response actions under EPA oversight.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed settlement. The Agency's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, California 94105 and the information repository for the BKK Landfill site located at the West Covina Public Library, 1601 West Covina Parkway, West Covina, CA 91790.
