Title: SunWise School Program; (OMB Control Number 2060-0439; EPA ICR No. 1904.01, expiring on 11/30/03).

Abstract: The goal of the SunWise School Program is to teach children and their care givers how to protect themselves from overexposure to the sun. The SunWise School Program recognizes the challenge of measuring the progress and evaluating the

effectiveness of an environmental and public health education program where the ultimate goal is to reduce risk and improve public health. Therefore, the continual and careful evaluation of program effectiveness through a variety of means, including data from pre- and post-intervention surveys, tracking and monitoring of classroom activities and school policies, and advisory board meetings, is necessary to monitor progress and refine the program. Surveys to be developed and administered include: (1) Student survey to identify current sun safety knowledge and behaviors among students; (2) Parent survey to compare findings with those of their children as well as to draw comparisons with the benchmarks established in other national surveys; and (3) Teacher questionnaire for measuring their receptivity to the educational component of the Program. The data will be analyzed and results will indicate the Program's effect on participants' sun-protection attitudes and behaviors. Responses to the collection of information are voluntary. All responses to the collection of information remain anonymous and confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average .5 hours per response.

Number to be surveyed annually (A)	Total hours burden (B)	Rate per hour (\$) (C)	Total cost (D=B*C) (D)
3,000 Students	3,000	0	0
1,000 Teachers	500	\$36.88	\$18,440.00
1,000 Parents	250	20.29	5,072.50
Total (annual)	3,750	23,512.50
ICR Total (3 years)	11,250	70,537.50

The contractor (Boston University Medical Center) will assist EPA in data collection and analysis. EPA has contracted for a total of 400 professional hours. At an average rate of \$100 per hour, the total cost for the contractor is \$40,000 annually. Agency burden to manage this contract is estimated at 4 hours/month or 48 hours annually. The

cost of this labor will be calculated based on a GS-12, Step 5 pay level (\$44.75/hour using the salary associated with this grade and step, multiplied by a benefits factor of 1.6¹⁶). Total hours (48) multiplied by \$44.75 per hour amounts to a total agency labor cost of \$2,196/per annum.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: May 28, 2003.

Director, Global Programs Division.
