SUPPLEMENTARY INFORMATION: The use of roads and trails for motorized and non-motorized recreation activities is an important use of BLM Public Lands. In response to recommendations made by the Front Range Resource Advisory Council, the BLM proposes developing a travel management plan and establishing OHV travel designations to restrict motorized travel to designated roads and trails. Preliminary issues and management concerns have been identified by BLM personnel, other agencies, and in meetings with individuals and user groups. They represent the BLM's knowledge to date on the existing issues and concerns with current management. The preliminary issues include: Impacts to public land users and adjacent private landowners; impacts to wildlife habitat; and impacts to water quality, vegetation, including riparian and wetland areas, and soils. These issues, along with others that may be identified through public participation, will be considered in the planning process. After gathering public comments on what issues the plan amendment should address, the suggested issues will be placed in one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

Rationale will be provided in the plan for each issue placed in category two or three. In addition to these major issues, a number of management questions and concerns will be addressed in the plan amendment. The public is encouraged to help identify these questions and concerns during the scoping phase.

An interdisciplinary approach will be used to develop the plan amendment in order to consider the variety of resource issues and concerns identified. Disciplines involved in the planning process will include specialists with expertise in rangeland management, minerals and geology, forestry, outdoor recreation, law enforcement, archaeology, wildlife and fisheries, lands and realty, hydrology, soils, vegetation, and fire.

Notification will be made to the Governor of Colorado, the Fremont and Custer County Commissioners, adjacent landowners, and potentially affected members of the public.

Roy L. Masinton,
Field Manager.
