However, applicants previously funded under this priority area will not be precluded from receiving grants.

Project Duration: The projects will be awarded for a project period of 60

months. The initial grant award will be for a 12-month budget period. The award of continuation funding beyond each 12-month budget period will be subject to the availability of funds, satisfactory progress on the part of each grantee, and a determination that continued funding would be in the best interest of the government.

Matching or Cost Sharing

Requirement: The grantee must provide at least ten percent of the total approved cost of the project. The total approved cost is the sum of the Federal share and the non-Federal share. Therefore, a project requesting \$350,000 per budget period must include a match of at least \$38,889 per budget period. The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources and failure to provide the required amount will result in a disallowance of unmatched Federal funds.

Eligible Applicants: States, local government entities, public or private non-profit licensed child welfare or adoption agencies, adoptive family groups and nonprofit organizations, including community and faith-based organizations, with experience working with rural populations and with access to children in foster care. cost of the project. The total approved cost is the sum of the Federal share and the non-Federal share. Therefore, a project requesting \$400,000 per budget period must include a match of at least \$44,444 per budget period. The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources and failure to provide the required amount will result in a disallowance of unmatched Federal funds.

Anticipated Number of Projects to be Funded: It is anticipated that up to eight projects will be funded.

match of at least \$27,778 in year one and \$55,556 per budget period for years two through five. The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. Project Duration: The length of the projects may not exceed 24 months.

Federal Share of Project Costs: The maximum Federal share of the project is not to exceed \$130,000 per academic institution, with a maximum of \$25,000 per student and \$30,000 for the faculty member. Each application must involve two to four student-candidates and a single faculty member.

2003B.2: Improving Child Welfare Outcomes Through Systems of Care

Eligible Applicants: State, territory, county or city child welfare agencies and federally recognized Native American Tribes are eligible applicants. 2003C.1C: Professional Education for Prospective and Current American Indian and/or Alaskan Native Public Child Welfare Staff who are currently enrolled or plan to enroll in BSW or MSW Social Work Programs (Awarding BSW and/or MSW Degree)

Note: In order to be responsive to a number of unique, professional education needs related to public child welfare practice, this priority area is being subdivided into three subcategories as outlined above. An institution may submit only one application under this priority area and must identify the sub-priority area to which it is responding in the abstract and narrative sections of the application.

Eligible Applicants: Public or non-profit institutions of higher education with accredited social work education programs. Priority will be given to applicants with a strong public child welfare agency/university partnership and/or applicants prepared to re-design their curriculum to maximize student learning opportunities for work in public child welfare agencies. Previously funded applicants under this priority area will not be precluded from receiving a grant.

\$75,000 for the 12-month budget period. A traineeship must not exceed \$7,500 per student per budget year. A minimum of 75 percent of the total project funds must be used for traineeships.

Matching or Cost Sharing Requirement:

No matching funds are required for the portion of the budget that pays for traineeships. However, grantees must provide a match to equal at least 25 percent of the total cost of grant activities other than traineeships. The total approved cost of these non-traineeship activities is the sum of the ACYF share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through a cash contribution. Therefore, a project requesting \$75,000 in Federal funds (with \$56,250 for traineeships and \$18,750 for non-traineeship activities per budget period) must include a match of at least \$6,250 (25 percent of the total cost for the non-traineeship activities). Because this is a training grant, indirect costs for these projects shall not exceed 8 percent. Funds from this grant cannot be used to match title IV-E training funds. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources and failure to provide the required amount will result in a disallowance of unmatched Federal funds.

Anticipated Number of Projects to be Funded:

Federal Share of Project Costs: The maximum Federal share of the project is up to \$200,000 per budget year.

Matching or Cost Sharing

Requirement: The grantee must provide at least 25 percent of the total approved cost of the project. The total approved cost is the sum of the Federal share and the non-Federal share. Therefore, a project requesting \$200,000 per budget period must include a match of at least \$66,667 per budget period. The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. SUMMARY: The Food and Drug Administration (FDA) is announcing the following public meeting: FDA Workshop on the Notification Process for Food Contact Substances. The purpose of the meeting is to discuss the

food contact notification (FCN) process so that notifiers and/or their representatives, consumer interest groups, and other interested members of the general public can have a better understanding of the FCN process, the information requirements of an FCN, and the common deficiencies to be avoided.

DATES: The meeting will be held on Wednesday, June 25, 2003, from 11:30 a.m. to 2:30 p.m.

ADDRESSES: The meeting will be held at the Hyatt Regency Chicago, 151 East Wacker Dr., Chicago, IL.

SUPPLEMENTARY INFORMATION:

I. Background

In November 1997, Congress passed the Food and Drug Administration Modernization Act of 1997 (FDAMA). Section 309 of FDAMA amended section 409 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 348) to establish a notification process for food contact substances (FCSs). An FCS is defined as "any substance intended for use as a component of materials used in manufacturing, packing, packaging, transporting, or holding food if such use is not intended to have a technical effect in such food" (21 U.S.C. 348(h)(6)). The FCN process is used to authorize the marketing of an FCS except where the Secretary determines that submission of a food additive petition is necessary or the Secretary and a manufacturer or supplier agree that a food additive petition may be submitted (21 U.S.C. 348(h)(3)(A)).

Under 21 U.S.C. 348(h), the notification process requires a manufacturer or supplier of an FCS to notify FDA at least 120 days prior to the introduction or delivery for introduction in interstate commerce of an FCS. If FDA does not object to the notification within 120 days, the notification becomes effective (21 U.S.C. 348(h)(2)(A)), and the substance may be legally marketed for the requested use by the notifier (21 U.S.C. 348(a)(3)(B)).

In the **Federal Register** of May 21, 2002 (67 FR 35724), FDA published a final rule amending the food additive regulations regarding the premarket notification process for FCSs. The rule became effective on June 20, 2002, and requires that a notification for an FCS contain sufficient scientific information

to demonstrate that the FCS that is the subject of the notification is safe for the intended use (21 CFR 170.101). Since the inception of the FCN process in 1999, FDA has found that FCNs frequently have deficiencies which cause them to be incomplete. FDA is having this public meeting to discuss the data requirements for an FCN and the commonly observed deficiencies and to assist notifiers and/or their representatives in submitting adequate and complete FCNs.

II. Registration and Written Questions

Persons interested in attending the June 25, 2003, meeting should send their registration information (including name, title, business affiliation, address, and telephone and fax number) to the contact person (see **FOR FURTHER INFORMATION CONTACT**). If you need special accommodations due to disability, please notify the contact person by June 13, 2003.

III. Availability of Guidance Documents for FCNs

Administrative, chemistry, and toxicology guidance documents for FCNs are available at the following Web site: <http://www.cfsan.fda.gov/~dms/opa-notf.html>.

IV. Agenda and Goals

FDA will present its recommendations for information necessary to make an FCN adequate and complete. Topics to be presented will be broadly divided among the general categories of administrative, chemical, toxicological, and environmental information. The agenda will include the following items:

(1) Administrative: guidance document, an overview of the review process, common FCN deficiencies, Form 3480, confidentiality, one FCS per FCN, and conditions under which a food additive petition should be submitted;

(2) Chemical: guidance document, common FCN deficiencies, approaches for determining migrant levels in food, estimated daily intake, and cumulative estimated daily intake;

(3) Toxicological: guidance document, common FCN deficiencies, acceptable daily intake, risk assessments, structure activity relationships, and recommended testing; and

(4) Environmental: requirements, common FCN deficiencies, categorical
