

RETENTION AND DISPOSAL:

As prescribed in NLRB Records Schedule, Job Number N1-025-01-1, OIG Investigative Files are generally destroyed 10 years after a case is closed. Cases that are unusually significant for documenting major violations of criminal law or ethical standards are offered to the National Archives for permanent retention.

SYSTEM MANAGER(S) AND ADDRESS:

Office of the Inspector General,
National Labor Relations Board, 1099
14th Street, NW., Suite 9820,
Washington, DC 20570, (202) 273-1960.

NOTIFICATION PROCEDURE:

The OIG Investigative Files are exempt pursuant to 5 U.S.C. 552a (j)(2) and (k)(2); however, consideration will be given to requests addressed to the system manager. The request should include the individual's name and date of birth.

RECORD ACCESS PROCEDURE:

See "Notification Procedures" above. Requestors should specify the record contents being sought. Under section 7(b) of the Inspector General Act of 1978 (Pub. L. 95-452), the identity of an employee or other personal source who makes a complaint or provides information to the Office of the Inspector General (OIG) via the OIG "Hotline" is exempt from disclosure unless the Inspector General determines such disclosure is unavoidable during the course of an investigation.

CONTESTING RECORD PROCEDURES:

Contact the system manager at the above address, and identify the record, specify the information to be contested, and the corrective action sought with supporting justification.

RECORD SOURCE CATEGORIES:

The Office of Inspector General collects information from a wide variety of sources, including information from the NLRB and other Federal, state, and local agencies, witnesses, complainants and other nongovernmental sources.

SYSTEMS EXEMPTIONS FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(j)(2), this system of records, to the extent it consists of investigatory material compiled for criminal law enforcement purposes, is exempted from all provisions of the Privacy Act of 1974, 5 U.S.C. 552a, except subsections (b), (c) (1) and (2), (e)(4) (A) through (F), (e) (6), (7), (9), (10), and (11), and (i).

Pursuant to 5 U.S.C. 552a(k)(2), this system of records, to the extent it consists of investigatory material

compiled for law enforcement purposes other than material within the scope of the exemption at 5 U.S.C. 552a(j)(2), is exempted from the following provisions of the Privacy Act of 1974, 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f).

These exemptions are contained in 29 CFR part 102.

NATIONAL SCIENCE FOUNDATION**Committee Management; Notice of Establishment**

The Deputy Director of the National Science Foundation has determined that the establishment of the Advisory Committee for Physical Anthropology and Archaeology Data Sharing is necessary and in the public interest in connection with the performance of duties imposed upon the National Science Foundation (NSF), by 42 U.S.C. 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Committee: Advisory Committee for Physical Anthropology and Archaeology Data Sharing (#16587).

Purpose: Advise the National Science Foundation (NSF) on matters concerning sharing of primary data within physical anthropology and archaeology. Recognizing unique characteristics of such information, it will assist Foundation officials in producing guidelines to implement NSF's data sharing policies. It will engage in discussion and prepare a report with recommendations.

Responsible NSF Official: Mark Weiss, Program Director, Physical Anthropology, National Science Foundation, 4201 Wilson Boulevard, Room 995, Arlington, VA 22230. Telephone: 703/292-8740.

Dated: June 5, 2003.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7590-01-M

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to Pub. L. 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Pub. L. 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from, May 16, 2003, through May 29, 2003. The last biweekly notice was published on May 27, 2003 (68 FR 28843).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed

determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received before action is taken. Should the Commission take this action, it will publish in the **Federal Register** a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D22, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area 01F21, 11555 Rockville Pike (first floor), Rockville, Maryland. The filing of requests for a hearing and petitions for leave to intervene is discussed below.

By July 10, 2003, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714, which is available at the Commission's PDR, located at One White Flint North, Public File Area 01F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish
