

l. *Location of the Filing:* This filing is available for review at the Commission in the Public Reference Room 888 First Street, NE., Room 2A, Washington, DC 20426 or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call toll-free 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov. For TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item h above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments:* Federal, state, and local agencies are invited to file comments on the described filing. A copy of the filing may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Magalie R. Salas,
Secretary.

[Project No. 12228-001]

Hulah Hydro, LLC; Notice of Surrender of Preliminary Permit

June 5, 2003.

Take notice that Hulah Hydro, LLC, permittee for the proposed Hulah Dam Hydroelectric Project, has requested that its preliminary permit be terminated. The permit was issued on November 5, 2002, and would have expired on October 31, 2005. The project would have been located on the Caney River in Osage County, Oklahoma.

The permittee filed the request on April 30, 2003. The preliminary permit for Project No. 12228 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday, or holiday as described in 18 CFR 385.2007, in which case the permit shall remain in effect through the first business day following that day. New applications involving this project site, to the extent provided

for under 18 CFR part 4, may be filed on the next business day.

Magalie R. Salas,
Secretary.

[Docket No. ER02-2001-000]

Electric Quarterly Reports; Revised Public Utility Filing Requirements; Notice of Extension of Time

June 4, 2003.

On April 25, 2002, the Commission issued Order No. 2001,¹ a final rule which requires public utilities to file Electric Quarterly Reports (EQR). Order 2001-C, issued December 18, 2002, instructs all public utilities to file these reports using Electric Quarterly Report Submission Software, beginning with the report due on or before January 31, 2003 (extended to February 21, 2003). On March 28, 2003, the Commission issued Order 2001-D, requiring public utilities to review their fourth quarter 2002 EQR submissions to ensure that the data filed was correct. Utilities were directed to re-submit their corrected data by April 11, 2003, which was extended to April 18, 2003.

Despite the extended due dates, several companies requested further extensions to the filing deadlines to resolve problems they experienced with compiling and formatting their data. Notice is hereby given that the deadlines for filing EQR data are extended to the dates listed for each company identified in the attachment to this notice.

Magalie R. Salas,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7510-7]

State Innovation Grant Program, Preliminary Notice and Request for Input on the Development of a Solicitation for Proposals for 2003/2004 Awards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency, Office of Policy, Economics and Innovation (OPEI) is giving a preliminary notice of its intention to solicit proposals for a 2003/2004 grant program to support innovation by state environmental regulatory agencies—the “State Innovation Grant Program.” The Agency is also seeking input from State Environmental Regulatory Agencies on the topic areas for the solicitation. In addition, EPA is asking each State Environmental Regulatory Agency to designate a point of contact at the management level (in addition to the Commissioner or Cabinet Secretary level) who should receive further communication about the upcoming solicitation. EPA anticipates publication of a **Federal Register** notice to announce the availability of the next solicitation within 60 days.

DATES: State Environmental Regulatory Agencies will have 30 days from the date of publication until [insert date 30 days after publication of this notice in the FR] of this pre-announcement notice in the **Federal Register** to respond with: (1) Suggestions for broad topic areas (e.g., a subject area and 1–2 paragraphs of description) for the next solicitation; and (2) point of contact information (name, title, mailing address, telephone and fax numbers, and e-mail address) for the person within the State Environmental Regulatory Agency (in addition to Commissioner or Cabinet Secretaries) who should receive future notices about the State Innovation Grants.

ADDRESSES: Information should be sent to: State Innovation Grant Program; Office of Policy, Economics and Innovation; U.S. Environmental Protection Agency (1807T); 1200

Pennsylvania Ave., NW., Washington, DC 20460. Responses may also be sent by fax to (202-566-2220), addressed to the “State Innovation Grant Program,” or by e-mail to: Innovation_State_Grants@EPA.gov. We encourage e-mail responses. If you have questions about responding to this notice, please contact EPA at this e-mail address or fax number, or you may call Gerald Filbin at 202-566-2182. EPA will acknowledge all responses it receives to this notice.

SUPPLEMENTARY INFORMATION:

Background

EPA pilot tested the State Innovation Grant Program with a solicitation in June, 2002 and subsequent awards starting in the fall of 2002. The 2002 Program solicitation focused on “innovation in environmental permitting programs” as they addressed the goals identified in EPA’s plan for future innovation, *Innovating for Better Environmental Results: A Strategy to Guide the Next Generation of Innovation at EPA* (EPA 100-R-02-002; <http://www.epa.gov/opei/strategy>). The Agency’s Innovation Strategy, which will remain key to this year’s Solicitation, presents a framework for innovation consisting of four major elements:

- (1) Strengthen EPA’s innovation partnerships with States and Tribes;
- (2) Focus on priority environmental areas:
 - Reduce greenhouse gases
 - Reduce smog
 - Restore and maintain water quality
 - Reduce the cost of water and wastewater infrastructure;
- (3) Diversify our environmental protection tools and approaches, including:
 - Information resources and technology
 - Environmental technology
 - Incentives
 - Environmental Management Systems
 - Results-based goals and measures;
- (4) Foster “innovation-friendly” systems and organizational.

The 2002 program focused on innovation in permitting, including the use of incentives and the development of Environmental Results Programs (ERPs) such as the one initially developed by Massachusetts and now being adopted by other States. For more information on last year’s solicitation, the proposals received, and the 2002 award decisions, please see the Web site at: <http://www.epa.gov/innovation/stategrants>.

Request for State Input on Solicitation Themes and Priorities

The 2003/2004 State Innovation Grant Program, building on the 2002 pilot program, will seek to strengthen EPA’s innovation partnership with States by providing a source of funding to facilitate State efforts to test new models for “next generation” environmental protection that will provide better environmental results, consistent with the goals of EPA’s *Innovation Strategy*.

EPA plans to retain the focus area of “innovation in permitting” (including support for development of Environmental Results Programs) for the upcoming solicitation, but will add other topic areas of mutual interest to this year’s solicitation, as well. (These grants will not be applied to the development or demonstration of new environmental technologies.) EPA is including additional focus areas in response to feedback received from States that found “innovation in permitting” to be too narrow a topic to capture their State priorities. Additional areas of competition in the solicitation will provide for development and implementation of other innovative approaches to solving priority environmental problems.

EPA is asking for State environmental regulatory agencies to provide brief (about 1 paragraph) suggestions about additional innovation themes that might be included as subject areas in this solicitation. Specifically, EPA is interested in hearing what activities in addition to permitting States believe are ripe for innovation. EPA will continue to encourage project proposals that address the four priority environmental areas identified above (i.e., reduce greenhouse gases; reduce smog; restore and maintain water quality; reduce the cost of water and wastewater infrastructure) and use tools (i.e., incentives, information, performance measurement, etc.) highlighted in the Innovation Strategy. State Environmental Regulatory Agency respondents should send their suggestions to EPA by mail, e-mail, or fax as described in the “Addresses” section above.

Competition Limited to the State Environmental Regulatory Agency

The competition will be limited to the principal Environmental Regulatory Agency within each State, although these agencies are encouraged to partner with other agencies within the State that have environmental mandates (e.g.,
