

Security Act of 2001, Public Law 107-71, transferred the responsibility for civil aviation security, including the prescribing of employment standards as outlined above, from FAA to TSA. In February 2002, TSA implemented its employment standards at 49 CFR parts 1542 and 1544, while 14 CFR parts 107 and 108 were repealed. Airport operators maintain records of compliance with part 1542 for those employees with access privileges to secure areas of the airport. Air carrier operators maintain records of compliance with part 1544 for selected crew and security employees. TSA civil aviation security inspectors review these records to ensure that the safety and security of the public is not compromised. Estimates regarding the burden this collection places on the affected public were recalculated to more accurately reflect the time and effort that is being devoted to this collection in the wake of September 11, 2001.

Number of Respondents: 1165.

Estimated Annual Burden Hours: 120,005.

TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Issued in Arlington, Virginia, on June 6, 2003.

Susan T. Tracey,

Deputy Chief Administrative Officer.

Information Collection To Be Submitted to the Office of Management and Budget (OMB) for Approval; Togiak National Wildlife Refuge Oral History Project

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service will submit the collection of information listed below to OMB for approval under the provisions of the Paperwork Reduction Act. The information collection requirement is described in this notice. If you wish to obtain copies of the proposed information collection requirement, related forms, or explanatory material, contact the Service Information Collection Clearance Officer at the address listed below.

DATES: You must submit comments before July 11, 2003.

ADDRESSES: Submit your comments on this information collection to the Desk Officer for the Department of the Interior at OMB-OIRA via facsimile or e-mail using the following fax number or e-mail address: (202) 395-5806 (fax); *ruth_solomon@omb.eop.gov* (e-mail). Please provide a copy of your comments to the Fish and Wildlife Service's Information Collection Clearance Officer, 4401 N. Fairfax Dr., MS 222 ARLSQ, Arlington, VA 22207; (703) 358-2269 (fax); or *anissa_craghead@fws.gov* (e-mail).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information, or related forms, contact Anissa Craghead at (703) 358-2445, or electronically to *anissa_craghead@fws.gov*.

SUPPLEMENTARY INFORMATION:

The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (*see* 5 CFR 1320.8(d)). The U.S. Fish and Wildlife Service (We) plan to submit a request to OMB for approval of a new collection of information on the traditional ecological knowledge of residents in the vicinity of Togiak National Wildlife Refuge, in southwestern Alaska. We are requesting a 3-year term of approval for this information collection activity.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Because this would be a new information collection, we are asking OMB to assign a new control number to this activity.

The National Wildlife Refuge System Improvement Act of 1997 (Pub. L. 105-57) amends and builds on the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee, as

amended) (Act) to improve the management of the National Wildlife Refuge System. Section 5 of the Act specifies that each refuge shall be managed to fulfill the mission of the System, as well as the specific purposes for which that refuge was established, and to ensure that the biological integrity, diversity, and environmental health of the System are maintained for the benefit of present and future generations of Americans. To help fulfill the goals of the Act, we are requesting OMB approval of a collection of information on traditional ecological knowledge relating to persistence and change over time of the fish and wildlife populations and habitats of the area in and around Togiak National Wildlife Refuge. The information collected during this project would be used by cooperators to create a permanent record of the long-term, local subsistence activities and status of natural resources in the area of the refuge.

Title: Oral History and Traditional Knowledge-Gathering Within Togiak National Wildlife Refuge.

Frequency of Collection: Annually.

Description of Respondents: Local rural residents.

Total Annual Burden Hours: The reporting burden is estimated to average 5.5 hours per respondent. The total annual burden is 55 hours.

Total Annual Responses: We expect 10 individuals to participate in the survey per year.

We invite comments concerning this new request on: (1) Whether the collection of information is necessary for the proper performance of our refuge management functions, including whether the information will have practical utility; (2) the accuracy of our estimate of the burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents.

Dated: June 5, 2003.

Anissa Craghead,

Information Collection Officer, Fish and Wildlife Service.

Notice of Availability of the Record of Decision To Authorize Issuance of a Section 10 Permit to the Salt River Project for Incidental Take of Southwestern Willow Flycatcher, Yuma Clapper Rail, Bald Eagle, and Yellow-Billed Cuckoo in Gila and Maricopa Counties, AZ

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), this notice advises the public that the U.S. Fish and Wildlife Service (Service) has issued an incidental take permit (ITP), pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act), to the Salt River Project (SRP). The permit authorizes the incidental take of the following federally listed and candidate species: Southwestern willow flycatcher (*Empidonax traillii extimus*) (flycatcher), Yuma clapper rail (*Rallus longirostris yumanensis*) (clapper rail), bald eagle (*Haliaeetus leucocephalus*), and the yellow-billed cuckoo (*Coccyzus americanus*) (cuckoo). The authorized take will occur in Gila and Maricopa counties, Arizona, as a result of management actions allowing Roosevelt Lake to fill, causing inundation of occupied habitat. The Service issued an Environmental Impact Statement (EIS) that evaluated the impacts of alternatives considered prior to issuance of the ITP. SRP submitted the Roosevelt Habitat Conservation Plan (RHCP) and Implementing Agreement with their permit application. These documents describe measures to minimize and mitigate the effects of the taking of listed and candidate species and the habitats upon which they depend.

The Record of Decision became effective on February 27, 2003. It states that the preferred alternative, as described in the Final EIS, will be implemented, and discusses all factors leading to the decision.

ADDRESSES: The Record of Decision for the SRP can be accessed on the Internet at <http://southwest.fws.gov/htopic.html> or viewed at the following locations (by appointment at government offices):

FOR FURTHER INFORMATION CONTACT: Ms. Sherry Barrett, Assistant Field Supervisor, Tucson Suboffice, U.S. Fish and Wildlife Service, 110 S. Church, Suite 3450, Tucson, AZ 85701 at 520/670-4617.

SUPPLEMENTARY INFORMATION: This notice advises the public that the Service gathered the information necessary to (1) determine impacts and formulate alternatives for the EIS, related to the issuance of an ITP to SRP; and (2) develop and implement the RHCP, which describes measures to minimize and mitigate the effects of the incidental take of federally listed species to the maximum extent practicable.

The Notice of Availability for the draft EIS, Application for the ITP, draft RHCP, and draft Implementing Agreement was published in the **Federal Register** on July 19, 2002 (67 FR 47564).

The Notice of Availability for the Final EIS, Final RHCP, and Implementing Agreement was published in the **Federal Register** on November 29, 2002 (67 FR 71193).

Background: Roosevelt is operated by SRP in conjunction with three other reservoirs on the Salt River and two reservoirs on the Verde River as integral features of the Salt River Reclamation Project, authorized by the Reclamation Act of 1902, and pursuant to a 1917 contract with the United States. Since completion in 1911, Roosevelt has provided water for power generation, irrigation, municipal and other uses. Currently, SRP reservoirs supply water to more than 1.6 million people in the cities of Phoenix, Mesa, Chandler, Tempe, Glendale, Gilbert, Scottsdale, Tolleson, and Avondale. In addition, water is provided to irrigate agricultural lands within SRP and for other uses. Also, water is delivered to the Salt River Pima-Maricopa Indian Community, Fort McDowell Indian Community, Gila River Indian Community, Buckeye
