

in the BSAI. The BSAI pollock quota is suballocated to groups of vessel owners who form fishing vessel cooperatives under the AFA. All AFA vessel and processor permits have no expiration date and will remain valid indefinitely unless revoked by NOAA. Inshore catcher vessel cooperatives wishing to receive an allocation of the BSAI inshore pollock total allocated catch (TAC) are required to submit an application for an inshore cooperative fishing permit on an annual basis by December 1 of the year prior to the year in which the cooperative fishing permit will be in effect. The information must be collected once a year because NOAA must identify the universe of participating vessels and processors prior to the start of each fishing year in order to assign allocations of pollock TAC to eligible groups of vessels that form cooperatives.
