

county and local governments and agencies, (b) tribal governments, (c) groups and organizations and (d) individuals. Comments relating to the preliminary issues and planning criteria should be submitted in writing to the address provided above.

An individual, business entity, or public body may participate in this process by providing information regarding coal or other resource information to assist in determining conflicts that may result from issuance of the coal lease. For other resource information, participants are asked to identify the particular resource value, to provide the reason that the resource would conflict with coal development and provide a map (minimal scale 1:24,000) showing the location of the resource.

The information available to the interdisciplinary team will be considered in addressing the specific resources and uses identified in the 20 Unsuitability Criteria listed at 43 CFR part 3461. Screening of the federal coal lands in the application area through the Unsuitable Criteria will result in a determination as to which lands are (1) acceptable for further leasing consideration with standard stipulations or (2) acceptable for further leasing consideration with special stipulations or (3) are unacceptable for further consideration for leasing.

Lands acceptable for further leasing consideration after screening through the Unsuitability Criteria will be further screened in regards to other resource values and uses that could be affected by lease issuance.

Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comments. Such requests will be honored to the extent allowed by the law. All submissions from organizations, businesses and individuals identifying themselves as representatives or officials of organizations or businesses will be available for public inspection in their entirety.

Due to the limited scope of this LUA/EA, a public meeting is not scheduled during this scoping stage. However, a public hearing will be conducted, in accordance with 43 CFR part 3420 and 1600, upon the completion of the LUA/EA. This hearing will be announced through the **Federal Register** and a local newspaper, at least 15 days prior to the hearing.

Dated: May 8, 2003.

Notice of Availability of Draft Environmental Impact Statement and Draft Amendment to the San Juan/San Miguel Resource Management Plan for a Proposed Ski Area Near Silverton, CO

AGENCY: Bureau of Land Management.

ACTION: Notice of availability of Draft Environmental Impact Statement (EIS) and draft amendment to the San Juan/San Miguel Resource Management Plan (RMP) for a proposed ski area near Silverton, Colorado.

SUMMARY: Pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (FLPMA) and section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), the Bureau of Land Management (BLM) directed the preparation of a Draft EIS, prepared by a third party contractor, to provide agency decision makers with comprehensive environmental impact information related to the proposed ski area. The proponent, Core Mountain Enterprises, LLC, proposes to use approximately 1,300 acres of BLM managed public land, combined with about 400 acres of their private lands, for a downhill ski area located about 5 miles north of Silverton, Colorado. The proposed action will require a plan amendment if it results in a change in the scope of resources uses, or decisions in the San Juan/San Miguel RMP.

DATES: Written comments will be accepted for 90 days following the date the Environmental Protection Agency (EPA) publishes this notice in the **Federal Register**. For future meetings or any other public involvement activities, all parties on the project's mailing list will be notified through written correspondence; in addition, public notices will be placed in the local newspapers 15 days prior to the meetings.
