Notice Pursuant to the National Cooperative Research and Production Act of 1993—Long Term Implantable Glucose Monitor

Notice is hereby given that, on June 3, 2003, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Animas Corporation and PD-LD, Inc., as a joint research venture, have filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, PD-LD, Inc., Pennington, NJ has been added as a party to this venture. Also, Sarnoff Corporation, Princeton, NJ has been dropped as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and Animas Corporation intends to file additional written notification disclosing all changes in membership.

On September 27, 2001, Animas Corporation and Sarnoff Corporation filed its original notification pursuant to section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to section 6(b) of the Act on January 22, 2002. (67 FR 2909).

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Anker West Virginia Mining Company, Inc.

[Docket No. M-2003-038-C]

Anker West Virginia Mining Company, Inc., 22 Hampton Road, Buckhannon, West Virginia 26201 has filed a petition to modify the application of 30 CFR 75.364(b)(1) (Weekly examination) to its Spruce Fork Mine No. 1 (MSHA I.D. No. 46-08622) located in Upshur County, West Virginia. The petitioner proposes to establish an evaluation point to be examined weekly to monitor quality, quantity and direction of air flow through the A Mains intake air course starting at spad 428 and ending at spad 388, a distance of 3100 feet (Hereinafter "A Mains air course"). The evaluation point will be established at the inby end of this intake air course near spad 388 to test for methane accumulation, oxygen deficiency, quantity of air and for the proper direction of air flow. The results of these tests will be recorded in a book provided on the surface. The petitioner states that a pre-shift examination of the belt side of the intake stopping line separating the belt from the intake air course will be made every 8 hours, and any hazardous conditions found will be recorded in a book provided on the surface. The petitioner asserts that the proposed
