

E. Effective Date of Revocation

As reflected in section III.B, the Department anticipates that, on the date the application for the changed circumstance review is filed ("application date"), the reforms of the provincial timber sales system will be in place and operating so as to ensure that the province receives adequate remuneration. Accordingly, if the Department determines, as a result of the review, that revocation of the order with respect to the province is warranted, the Department will normally order revocation of the countervailing duty order with respect to all unliquidated entries of the subject merchandise produced in the province from timber harvested in the province that is entered, or withdrawn from warehouse, on or after the application date. If, however, reforms necessary to demonstrate a market-based timber sales program are not in effect or operational at the time of a province's application date, the Department may alter the effective date of the revocation to reflect the date on which such reforms took effect during the period of the changed circumstance review.

DEPARTMENT OF COMMERCE**National Institute of Standards and Technology****Notice of Government Owned Inventions Available for Licensing**

AGENCY: National Institute of Standards and Technology Commerce.

ACTION: Notice of government owned inventions available for licensing.

SUMMARY: The invention listed below is owned in whole by the U.S. Government, as represented by the Department of Commerce. The invention will be available for licensing beginning July 1, 2003, in accordance with 35 U.S.C. 207 and 37 CFR part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on this invention may be obtained by writing to: National Institute of Standards and Technology, Office of Technology Partnerships, Attn: Mary Clague, Building 820, Room 213, Gaithersburg, MD 20899. Information is also available via telephone: 301-975-4188, fax 301-869-2751, or e-mail: mary.clague@nist.gov. Any request for information should include the NIST Docket number and title for the relevant invention as indicated below.

SUPPLEMENTARY INFORMATION: NIST may enter into a Cooperative Research and Development Agreement ("CRADA") with the licensee to perform further

research on the inventions for purposes of commercialization. The invention available for licensing beginning July 1, 2003 is:

[Docket No.: 94-042US]

Title: Optical Trap For Detection and Quantitation Of Subzeptomolar Quantities of Analytes.

Abstract: Tightly focused beams of laser light are used as "optical tweezers" to trap and manipulate polarizable objects such as microspheres of glass or latex with diameters on the order of 4.5 micrometers. When analytes are allowed to adhere to the microspheres, small quantities of these analytes can be manipulated, thus allowing their detection and quantitation even when amounts and concentrations of the analytes are extremely small. Illustrative examples include measuring the strength needed to break antibody-antigen bonds and the detection of DNA sequences.
