SUPPLEMENTARY INFORMATION:**A. Purpose**

"Property," as used in Part 45, means all property, both real and personal. It includes facilities, material, special tooling, special test equipment, and agency-peculiar property. Government property includes both Government-furnished property and contractor-acquired property.

Contractors are required to establish and maintain a property system that will control, protect, preserve, and maintain all Government property because the contractor is responsible and accountable for all Government property under the provisions of the contract including property located with subcontractors.

The contractor's property control records shall constitute the Government's official property records and shall be used to:

- (a) Provide financial accounts for Government-owned property in the contractor's possession or control;
- (b) Identify all Government property (to include a complete, current, auditable record of all transactions);
- (c) Locate any item of Government property within a reasonable period of time.

This clearance covers the following requirements:

(a) FAR 45.307-2(b) requires a contractor to notify the contracting officer if it intends to acquire or fabricate special test equipment.

(b) FAR 45.502-1 requires a contractor to furnish written receipts for Government property.

(c) FAR 45.502-2 requires a contractor to submit a discrepancy report upon receipt of Government property when overages, shortages, or damages are discovered.
