

position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse propagation conditions. The orderly nature of the provision of international broadcast service would be in jeopardy without the Commission's involvement.

OMB Control No.: 3060-XXXX.

Title: Application for Renewal of an International Broadcast Station License.

Form No.: FCC Form 422-IB.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents: 10.

Estimated Time Per Response: 2-10 hours.

Frequency of Response: On occasion, annual, semi-annual and one-time reporting requirements.

Total Annual Burden: 60 hours.

Total Annual Cost: \$32,000.

Needs and Uses: The Commission is proposing creation of a new form, FCC Form 422-IB. This new International Bureau form would be completed by international broadcasters in lieu of the FCC Form 311. All questions previously contained in the FCC Form 311 that are applicable only to international broadcasters will be retained in the new form. The FCC Form 311 will continue to be used by the Media Bureau in connection with experimental broadcast stations.

The Commission received approval for the use of the FCC Form 311 under OMB Control Number 3060-1035 which includes FCC Forms 309 and 310. The Commission requests that a new collection be established to put the new FCC Form 422-IB under a separate OMB control number to facilitate any changes to the form in the future. The form will be available on the Internet, by fax-on-demand, and in paper format. The implementation of electronic filing of the form in the International Bureau Filing System (IBFS) is contingent upon the availability of budget funds.

The information collected pursuant to the rules set forth in 47 CFR part 73, subpart F, is used by the Commission to assign frequencies for use by international broadcast stations, to grant authority to operate such stations and to determine if interference or adverse propagation conditions exist that may impact the operation of such stations. If the Commission did not collect this information, it would not be in a position to effectively coordinate spectrum for international broadcasters or to act for entities in times of frequency interference or adverse propagation conditions. The orderly nature of the provision of international

broadcast service would be in jeopardy without the Commission's involvement.

OMB Control No.: 3060-XXXX.

Title: Application for Permit to Deliver Programs to Foreign Broadcast Stations.

Form No.: FCC Form 423-IB.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents: 30.

Estimated Time Per Response: 2-10 hours.

Frequency of Response: On occasion, annual, semi-annual and one-time reporting requirements.

Total Annual Burden: 80 hours.

Total Annual Cost: \$26,000.

Needs and Uses: The Commission is proposing creation of a new form, FCC Form 423-IB. This new International Bureau form would be completed by international broadcasters in lieu of the FCC Form 308. All questions previously contained in the FCC Form 308 that are applicable only to international broadcasters will be retained in the new form. The Commission requests that a new collection be established to put the new FCC Form 423-IB under a separate OMB control number to facilitate any changes to the form in the future. The form will be available on the Internet, by fax-on-demand, and in paper format. The implementation of electronic filing of the form in the International Bureau Filing System (IBFS) is contingent upon the availability of budget funds.
