**ACTION:** Inseason action; request for comments.

**SUMMARY:** NMFS announces changes to the regulations for the Area 2A sport halibut fisheries off the south coast of Washington. This action would change the days of the week open to halibut fishing in the Washington south coast recreational fishing subarea. The purpose of this action is to allow increased access to Washington's south coast recreational halibut quota while monitoring yelloweye rockfish interception.

**DATES:** Effective 0001 local time, June 27, 2003, through the **Federal Register** publication of the 2004 specifications and management measures. Comments on this rule will be accepted through July 16, 2003.

**ADDRESSES:** Submit comments to D. Robert Lohn, Regional Administrator, Northwest Region, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115-0070. **SUPPLEMENTARY INFORMATION:** The Area 2A Catch Sharing Plan for Pacific halibut off Washington, Oregon, and California is implemented in the annual management measures for the Pacific halibut fisheries published on March 7, 2003 (68 FR 10989, as amended at 68 FR 22323, April 28, 2003 and at 68 FR 23901, May 6, 2003). Those regulations established the 2003 area quota for the south coast of Washington (Queets River, WA to Leadbetter Point, WA) fishery of 48,623 lb (22.1 mt) and the related management measures. The all-depth sport fishery in this area is scheduled for 5 days per week (Sunday through Thursday), and the nearshore fishery is scheduled for 7 days per week.

The pace of the all-depth halibut fishery is anticipated to slow off the south Washington coast, similar to 2002, beginning with the start of the recreational chinook and coho salmon fishery on June 22, which will be open through the earlier of September 14 or quota attainment. In 2002, effort shifted from the sport halibut fishery to the
