

Materials License, #2803, Rockingham County, Virginia” Letter from K. Mayne, U.S. Fish and Wildlife Service to NRC dated January 16, 2003. (ML030220358)

### III. Finding of No Significant Impact

Based upon the environmental assessment, the staff concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the staff has determined that preparation of an environmental impact statement is not warranted.

### IV. Further Information

The references listed above are available for public inspection and may also be copied for a fee at the NRC’s Public Document Room, located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. These documents are also available for public review through ADAMS, the NRC’s electronic reading room, at: <http://www.nrc.gov/reading-rm/adams.html>. Any questions with respect to this action should be referred to Orysia Masnyk Bailey, Materials Licensing/Inspection Branch 1, Division of Nuclear Materials Safety, U.S. Nuclear Regulatory Commission, Region II, Suite 23T85, 61 Forsyth Street, SW., Atlanta, Georgia 30303. Telephone 404-562-4739.

Dated at Atlanta, Georgia, the 17th day of June, 2003.

For the Nuclear Regulatory Commission.

**Douglas M. Collins,**

*Director, Division of Nuclear Materials Safety, Region II.*

## POSTAL SERVICE

### NCOALink (National Change of Address Linkage System) Product

**AGENCY:** Postal Service.

**ACTION:** Notice.

**SUMMARY:** The United States Postal Service has developed the NCOALink secure dataset product that will enable mailers to update name and address mailing lists with customers’ new mailing addresses prior to mailing in a manner which will increase the security of postal customer data and further protect the privacy of this information.

This does not represent a change in address policy. Rather, this increases the security of address information. The Postal Service intends, after an appropriate transition period, to replace the current National Change of Address (NCOA) and FASTforward® Mailing List Correction (MLC) licensed products with NCOALink licensed products. At this time the NCOALink technology is not supported on Multiline Optical Character Reader (MLOCR) platforms, therefore there is no impact to the FASTforward® MLOCR licensed service. Beginning July 1, 2003, interested parties may apply for NCOALink product licenses. Effective October 1, 2003, the usage of the NCOALink product will be recognized as an additional method for mailers to meet the USPS Move Update requirements in order to obtain First-Class Mail automation and Presorted discounts.

**EFFECTIVE DATE:** July 1, 2003.

### FOR FURTHER INFORMATION CONTACT:

Contact the Move Update Department—NCOALink Group at the Postal Service National Customer Support Center at (800)-589-5766; or John Boyce at (901) 681-4666; or Charles Hunt at (901) 681-4651; or Wayne Orbke at (901) 681-4658.

**SUPPLEMENTARY INFORMATION:** Mailers will be able to process a mailing list using NCOALink and update the mailing addresses on the list with permanent change-of-address (COA) information using secure data store technology. This technology process results in no human-readable address information being represented within the NCOALink product. Therefore it provides a very high level of security for customer-filed COA information and significantly strengthens the ability of the Postal Service to exercise appropriate oversight of the information. The introduction of NCOALink does not change, in any way, Postal Service policies or usage restrictions regarding change-of-address information. This new product will be available under license from the Postal Service and will be available both to individual mailers and to service bureaus.

This product enables the Postal Service to make available a pre-mailing address correction service in a format that is not a clear text address list, but is instead a mathematical formulation. As a result, mailers can potentially integrate the NCOALink product into their own in-house computer technology and have the ability to update address-specific information for mailings during their business operations.
