

Assessment

The Department shall determine, and the U.S. Bureau of Customs and Border Protection ("BCBP") shall assess, antidumping duties on all appropriate entries. We will issue assessment instructions directly to BCBP within 15 days of publication of these final results of review. In accordance with 19 CFR 351.106(c)(1), we will instruct BCBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis* (i.e., less than 0.50 percent). For assessment purposes, we do not have the actual entered value for Indo Evergreen and Zeta because these respondents are not the importers of record for the subject merchandise. Accordingly, we have calculated importer-specific assessment rates by aggregating the dumping margins calculated for all of Indo Evergreen's and Zeta's U.S. sales examined and dividing the respective amounts by the total quantity of the sales examined for each producer. To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer-specific *ad valorem* ratios based on export prices.

With regard to Zeta, in accordance with 19 CFR 351.222(f)(3), we will instruct BCBP to proceed with liquidation, without regard to antidumping duties, of all unliquidated entries of certain preserved mushrooms from Indonesia entered, or withdrawn from warehouse, for consumption on or after February 1, 2002. We will further instruct BCBP to refund with interest any estimated duties collected with respect to unliquidated entries of certain preserved mushrooms exported by Zeta.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) the cash deposit rate for Indo Evergreen (Zeta is exempt due to revocation) is less than 0.50 percent, and therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), and therefore the cash deposit rate is 0.00; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3)

if the exporter is not a firm covered in this review, a prior review, or the original less than fair value ("LTFV") investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 11.26 percent, the "All Others" rate made effective by the LTFV investigation. These requirements shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as the only reminder to parties subject to the administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO material or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

This administrative review and notice are published in accordance with sections 751(a)(1) and 751(d)(1) of the Act and 19 CFR 351.221 and 19 CFR 351.222.

Notice of Initiation of Countervailing Duty Investigation: Certain Colored Synthetic Organic Oleoresinous Pigment Dispersions From India

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Initiation of Countervailing Duty Investigation.

EFFECTIVE DATE: July 2, 2003.

FOR FURTHER INFORMATION CONTACT: Geoffrey Craig at (202) 482-5256 or Stephen Cho at (202) 482-3798, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Initiation of Investigation*The Petition*

On June 5, 2003, the Department of Commerce ("the Department") received a petition filed in proper form by Apollo Colors Inc., General Press Colors, Ltd., Magruder Color Company, Inc., and Sun Chemical Corporation (collectively, "the petitioners"). The Department received petition supplements on June 16, June 18, and June 20, 2003.

In accordance with section 702(b)(1) of the Tariff Act of 1930 ("the Act"), as amended, the petitioners allege that manufacturers, producers, or exporters of certain colored synthetic organic oleoresinous pigment dispersions ("colored pigment dispersions") from India receive countervailable subsidies within the meaning of section 701 of the Act, and that such imports from India are materially injuring, or are threatening to materially injure, an industry in the United States.

The Department finds that the petitioners filed this petition on behalf of the domestic industry because they are interested parties as defined in section 771(9)(C) of the Act and they have demonstrated sufficient industry support with respect to the countervailing investigation that they are requesting the Department to initiate. *See infra*, "Determination of Industry Support for the Petition."

Scope of Investigation

The products covered by this investigation are colored synthetic organic pigment dispersions containing pigments classified in either the Azo or Phthalocyanine chemical classes that have been dispersed in an oleoresinous varnish comprised of various combinations of solvents, oils and resins. The subject pigment dispersions are commonly known as "flush" or "flushed color," but the base form of the subject pigment dispersions is also included in the scope of this investigation. The subject pigment dispersions are a thick putty or paste

that contain by weight typically 20 percent or more pigment dispersed in the varnish, and are used primarily for the manufacture of letterpress and lithographic printing inks. The presence of additives, such as surfactants, antioxidants, wetting agents, and driers, in the subject pigment dispersions does not exclude them from the scope of this investigation.

Excluded from the scope of this investigation are dry powder pigments and pigment press cakes, as well as water and flammable solvent based colored pigment dispersions, which typically are used in manufacturing liquid or fluid inks. Also excluded is Yellow 75, which is typically used to make the yellow paint to line roads.

The merchandise subject to this investigation is classifiable under subheadings 3204.17.6020 (Pigment Blue 15:4), 3204.17.6085 (Pigments Red 48:1, Red 48:2, Red 48:3, and Yellow 174), 3204.17.9005 (Pigment Blue 15:3), 3204.17.9010 (Pigment Green 7), 3204.17.9015 (Pigment Green 36), 3204.17.9020 (Pigment Red 57:1), 3204.17.9045 (Pigment Yellow 12), 3204.17.9050 (Pigment Yellow 13), 3204.17.9055 (Pigment Yellow 74), and 3204.17.9086¹ (Pigments Red 22, Red 48:4, Red 49:1, Red 49:2, Red 52:1, Red 53:1, Yellow 14, and Yellow 83) of the Harmonized Tariff Schedule of the United States ("HTS"). Although the HTS subheadings are provided for convenience and customs purposes, the
