

Synopsis: The amendment deletes a vessel string from the agreement and revises CSCL's allocation on Zim's ZCS service and Zim's allocation on CSCL's AAS service.

Agreement No.: 200813-002.

Title: Broward/Universal Marine Terminal Agreement.

Parties: Broward County (Florida), Universal Maritime Service Corporation.

Synopsis: The amendment reflects a change of party through assignment and a change in demise. The agreement runs through September 28, 2013.

Dated: July 3, 2003.

By order of the Federal Maritime Commission.

Bryant L. VanBrakle,
Secretary.

BILLING CODE 6730-01-P

FEDERAL RESERVE SYSTEM

Government in the Sunshine Meeting Notice

AGENCY: Board of Governors of the Federal Reserve System

TIME AND DATE: 2:30 p.m., Friday, July 11, 2003.

PLACE: Marriner S. Eccles Federal Reserve Board Building, 20th Street entrance between Constitution Avenue and C Streets NW., Washington, DC 20551.

STATUS: Open.

We ask that you notify us in advance if you plan to attend the open meeting and provide your name, date of birth, and social security number (SSN) or passport number. You may provide this information by calling (202) 452-2474 or you may *register on-line*. You may pre-register until close of business July 10, 2003. You also will be asked to provide identifying information, including a photo ID, before being admitted to the Board meeting. The Public Affairs Office must approve the use of cameras; please call (202) 452-2955 for further information. *Privacy Act Notice:* Providing the information requested is voluntary; however, failure to provide your name, date of birth, and social security number or passport number may result in denial of entry to the Federal Reserve Board. This information is solicited pursuant to Sections 10 and 11 of the Federal Reserve Act and will be used to facilitate a search of law enforcement databases to confirm that no threat is posed to Board employees or property. It may be disclosed to other persons to evaluate a potential threat. The

information also may be provided to law enforcement agencies, courts and others, but only to the extent necessary to investigate or prosecute a violation of law.

MATTERS TO BE CONSIDERED:

Discussion Agenda:

1. Capital proposals related to the new Basel accord.
2. Any items carried forward from a previously announced meeting.

Note: This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office and copies may be ordered for \$6 per cassette by calling 202-452-3684 or by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT:

Michelle A. Smith, Assistant to the Board; 202-452-2955.

SUPPLEMENTARY INFORMATION: You may call 202-452-3206 for a recorded announcement of this meeting; or you may contact the Board's Web site at <http://www.federalreserve.gov> for an electronic announcement. (The Web site also includes procedural and other information about the open meeting.)

Dated: July 3, 2003.

Jennifer J. Johnson,
Secretary of the Board.

BILLING CODE 6210-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-51-03]

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project: Automated Management Information System (MIS) for Diabetes Control Programs (OMB

Control No. 0920-0479)—Extension—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC). CDC has implemented a Management Information System (MIS) and federally sponsored data collection requirement from all CDC funded diabetes control programs. Diabetes is the sixth leading cause of death in the United States contributing to more than 200,000 deaths each year. An estimated 11.1 million people in the United States have been diagnosed with diabetes and an estimated 5.9 million people have undiagnosed diabetes. CDC's Division of Diabetes Translation (DDT) provides funding to health departments of States and territories to develop, implement, and evaluate systems-based Diabetes Control Programs (DCPs). DCPs are population-based, public health programs that design, implement and evaluate public health prevention and control strategies that improve access to and quality of care for all, and reach communities most impacted by the burden of diabetes (e.g., racial/ethnic populations, the elderly, rural dwellers and the economically disadvantaged). Support for these programs is a cornerstone of the DDT's strategy for reducing the burden of diabetes throughout the nation. The Diabetes Control Program is authorized under sections 301 and 317(k) of the Public Health Service Act (42 U.S.C. 241 and 247b(k)).

In accordance with the original OMB approval (July 20, 2002), this extension will continue to expand and enhance the technical reporting capacity of the MIS. The MIS is a web-based, password access protected repository/technical reporting system that replaced an archaic paper reporting system. The MIS allows the accurate, uniform, and complete collection of diabetes program progress information using the Internet. The MIS has improved upon the old data collection system by:

- Improving accountability;
- Shortening the information cycle;
- Eliminating non-standard reporting;
- Minimizing unnecessary duplication of data collection and entry;
- Reducing the reporting burden on small state organizations;
- Using plain, coherent, and unambiguous terminology that is understandable to respondents;
- Implementing a consistent system for progress reporting and record keeping processes;
- Identifying the retention periods for record keeping requirements;

- Utilizing modern information technology for data collection and transfer;
- Significantly reducing the amount of paper reports that diabetes control programs are required to submit.

The MIS has allowed CDC to more rapidly respond to outside inquiries concerning a specific diabetes control activity occurring in the state diabetes control programs. The data collection requirement has formalized the format and contents of diabetes data reported

from the DCPs and provides an electronic means for efficient collection and transmission to the CDC headquarters.

The MIS has facilitated the staff's ability at CDC to fulfill its obligations under the cooperative agreements; to monitor, evaluate, and compare individual programs; and to assess and report aggregate information regarding the overall effectiveness of the DCP program. It has also supported DDT's broader mission of reducing the burden

of diabetes by enabling DDT staff to more effectively identify the strengths and weaknesses of individual DCPs and to disseminate information related to successful public health interventions implemented by these organizations to prevent and control diabetes. Implementation of the MIS has provided for efficient collection of state-level diabetes program data. The annual burden for this data collection is 236 hours.

Respondents	No. of respondents	No. of responses/respondent	Average burden/response (in hours)
State Program Control Officers	59	1	4

Dated: July 2, 2003.
Thomas A. Bartenfeld,
Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Proposed Project: Aggregate Reports for Tuberculosis Program Evaluation (OMB No. 0920-0457)—Reinstatement without change—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC). CDC is requesting OMB approval to reinstate without change the Aggregate Reports for Tuberculosis Program Evaluation. This request is for a three-year extension of clearance. There are no revisions to the report forms, data definitions, or reporting instructions.

To ensure the elimination of tuberculosis in the United States, key program activities, such as finding tuberculosis infections in recent contacts of cases and in other persons likely to be infected and providing therapy for latent tuberculosis infection, must be monitored. In 2000, CDC implemented two program evaluation reports for annual submission: Aggregate report of follow-up for contacts of tuberculosis, and Aggregate report of screening and preventive therapy for tuberculosis infection (OMB No. 0920-0457). The respondents for these reports are the 68 state and local tuberculosis control programs receiving federal cooperative agreement funding through DTBE. These reports replaced two, twice-yearly program management

reports in the Tuberculosis Statistics and Program Evaluation Activity (OMB 0920-0026); Contact Follow-up (CDC 72.16) and Completion of Preventive Therapy (CDC 72.21). The replacement reports emphasized treatment outcomes, high-priority target populations vulnerable to tuberculosis, and programmed electronic report entry and submission through the Tuberculosis Information Management System (TIMS).

No other Federal agency collects this type of national TB data, and the Aggregate report of follow-up for contacts of tuberculosis, and Aggregate report of screening and preventive therapy for tuberculosis infection are the only data source about latent tuberculosis infection for monitoring national progress toward tuberculosis elimination.

In addition to providing ongoing assistance about the preparation and utilization of these reports at the local and state levels of public health jurisdiction, CDC held three national training workshops about the reports and will convene additional workshops when requested by the respondents. CDC also provides respondents with technical support for the TIMS software. The annual burden for this data collection is 204 hours.
