The purpose of this notice is to invite any additional comments on the River District's request to use the alternative procedures, pursuant to Section 4.34(i) of the Commission's regulations. Additional notices seeking comments on the specific project proposal, interventions and protests, and mandatory terms and conditions will be issued at a later date. The River District will complete and file a preliminary Environmental Assessment, in lieu of Exhibit E of the exemption application. This differs from the traditional process, in which an applicant consults with agencies, Indian tribes, NGOs, and other parties during preparation of the exemption application and before filing the application, but the Commission staff performs the environmental review after the application is filed. The alternative procedures are intended to simplify and expedite the exemption process by combining the pre-filing consultation and environmental review processes into a single process, to facilitate greater participation, and to improve communication and cooperation among the participants.

The River District intends to file 6-month progress reports during the alternative procedures process that leads to the filing of an exemption application by February 2005.
