This document corrects references inadvertently retained in that document.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

Categories and entities potentially regulated by this action include:

Category	NAICS	Regulated entities
Industrial gas manufacturing	325120	Chlorofluorocarbon gases manufacturing.
Industrial gases merchant wholesalers	424690, 422690	Other Chemical and Allied Products Merchant Wholesalers.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this action. This table lists the types of entities that EPA is now aware could potentially be regulated by this action. Other types of entities not listed in this table could also be regulated. To determine whether your facility, company, business organization, etc. is regulated by this action, you should examine the applicability criteria in § 82.1(b) of 40 CFR part 82. If you have questions regarding the applicability of this action to a particular entity, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

B. How Can I Get Copies of This Document and Other Related Information?

1. *Docket.* Materials relevant to this action are contained in Docket No. A–98–33 at the Air and Radiation Docket at EPA West, Room B–108, 1301 Constitution Avenue, NW., Washington, DC 20004. The Docket Center is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the reading room is (202) 566–1742. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet

under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>. An electronic version of the public docket is also available through EPA's new electronic public docket, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/rpas/> to access the index listing of the contents of the official public docket for this action, as well as access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket identification number that EPA has established for this action. Certain types of information will not be placed in the EPA Docket. Information claimed as CBI, and other information whose disclosure is restricted by statute which is not included in the official public docket, will not be available for public viewing

in EPA's electronic public docket either. The EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available supporting materials for this action will be made available in EPA's electronic public docket. When a document is selected from the index list in the EPA Docket, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the Docket Center identified in this notice. The EPA intends to work toward providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

II. What Does This Correction Do?

The EPA published a document in the **Federal Register** of January 21, 2003, (68 FR 2820), in which references to paragraph (t) were inadvertently retained in § 82.4. This correction amends the references from paragraph (t) to paragraph (n).

The corrections will become effective immediately (without further rulemaking action) on July 16, 2003.

III. Why Is This Correction Issued as a Final Rule?

Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined that there is good cause for making today's action final without prior proposal and opportunity for comment because the changes to the rule are minor technical corrections and do not change the requirements of the rule. Thus, notice and public procedure are unnecessary. We find that this constitutes good cause under 5 U.S.C. 553(b)(B) (see also the final sentence of section 307(d)(1) of the Clean Air Act, 42 U.S.C. 7607(d)(1), indicating that the good cause provisions of the APA continue to apply to this type of rulemaking under the Clean Air Act).

Section 553(d)(3) allows an agency, upon a finding of good cause, to make a rule effective immediately. Because today's changes do not change the requirements of the rule, we find good cause to make these technical corrections effective immediately.

IV. Do Any of the Executive Order and Statutory Reviews Apply to This Correction?

This final rule implements a technical correction to the Code of Federal Regulations, and it does not otherwise impose or amend any requirements.

1. *Executive Order 12630*. The EPA has complied with Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings) (53 FR 8859, March 15, 1988) by examining the takings implications of this technical correction in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the Executive Order.

2. *Executive Order 12866*. Under Executive Order 12866, Regulatory Planning and Review (58 FR 51735, October 4, 1993), this technical correction is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget (OMB). This action is not a "major rule" as defined by 5 U.S.C. 804(2).

3. *Executive Order 12898*. This technical correction does not involve special consideration of environmental justice-related issues as required by Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations (59 FR 7629, February 16, 1994).

4. *Executive Order 12988*. In issuing this technical correction, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by section 3 of Executive Order 12988, Civil Justice Reform (61 FR 4729, February 7, 1996).

5. *Executive Order 13045*. This technical correction is not subject to Executive Order 13045, Protection of Children from Environmental Health and Safety Risks (62 FR 19885, April 23, 1997) because it is not economically significant as defined in Executive Order 12866, and because the Agency does not have reason to believe the environmental health or safety risks addressed by this action present a disproportionate risk to children.

6. *Executive Order 13132*. This technical correction does not have substantial direct effects on the States, or on the relationship between the national government and the States, as specified in Executive Order 13132, Federalism (64 FR 43255, August 10, 1999).

7. *Executive Order 13175*. This technical correction does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13175, Consultation and Coordination with Indian Tribal Governments (65 FR 67249, November 6, 2000).

8. *Executive Order 13211*. This technical correction is not subject to Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

9. *Paperwork Reduction Act*. This technical correction does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

10. *National Technology Transfer and Advancement Act*. This technical correction action does not involve changes to technical standards. Thus the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply.

11. *Regulatory Flexibility Act*. Because EPA has made a "good cause" finding that this action is not subject to notice and comment requirements under the APA or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

12. *Unfunded Mandates Reform Act*. This technical correction contains no Federal mandates (under the regulatory provisions of Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), (Pub. L. 104-4), for State, local, or tribal governments or the private sector because the correction imposes no enforceable duty on any State, local or tribal governments or the private sector. Thus the correction is not subject to the requirements of sections 202 and 205 of the UMRA. In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of the UMRA.

13. *Congressional Review Act*. The Congressional Review Act (CRA) (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise

provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of July 16, 2003. The EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**.

The EPA's compliance with these Executive Orders and statutes for the underlying rule is discussed in the January 21, 2003, **Federal Register** notice containing the Allowance System for Controlling HCFC Production, Import and Export final rule (68 FR 2820).

Cymoxanil; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of cymoxanil in or on hop, dried cones; lettuce, head; imported lychee; vegetable, cucurbit, group 9; and vegetable, fruiting, group 8. The Interregional Research Project Number 4 (IR-4), the Taipai Economic and Cultural Representative Office, and E.I du Pont Nemours and Company requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) of 1996. EPA is also deleting the time-limited tolerance for hop, dried cones established in connection with use of the pesticide under section 18 emergency exemptions and the tolerance for imported tomato. These tolerances are no longer needed since this rule establishes tolerances in support of the U.S. registration for hops and tomato.

DATES: This regulation is effective July 16, 2003. Objections and requests for hearings, identified by docket ID number OPP–2003–0219, must be received on or before September 15, 2003.

ADDRESSES: Written objections and hearing requests may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit VI. of the **SUPPLEMENTARY INFORMATION**.
