

effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefor, and established an effective date of July 18, 2003. The EPA will submit a report containing the rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 63

Environmental protection, Administrative practice and procedure, Air pollution control, Hazardous substances, Reporting and recordkeeping requirements.

Dated: July 7, 2003.

Jeffrey R. Holmstead,
Assistant Administrator for Air and Radiation.

■ For the reasons set out in the preamble, title 40, chapter I, part 63 of the Code of Federal Regulations is amended as follows:

PART 63—[Amended]

■ 1. The authority citation for part 63 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart MM—[AMENDED]

■ 2. Section 63.864 is amended by removing and reserving paragraphs (a) through (c), (d)(1) and (2), (e)(1) through (9), (f), (h), (i), and (j)(5) and (6).

■ 3. Section 63.865 is amended by revising paragraph (a)(1) to read as follows:

§ 63.865 Performance test requirements and test methods.

* * * * *

(a) * * *

(1) Determine the overall PM emission limit for the chemical recovery system at the mill using Equation 1 of this section as follows:

$$EL_{PM} = \frac{[(C_{ref,RF})(Q_{RFtot}) + (C_{ref,LK})(Q_{LKtot})](F1)}{(BLS_{tot})} + ER1_{ref,SDT}$$

Where:

EL_{PM} = Overall PM emission limit for all existing process units in the chemical recovery system at the kraft or soda pulp mill, kg/Mg (lb/ton) of black liquor solids fired;

C_{ref,RF} = Reference concentration of 0.10 g/dscm (0.044 gr/dscf) corrected to 8 percent oxygen for existing kraft or soda recovery furnaces;

Q_{RFtot} = Sum of the average volumetric gas flow rates measured during the performance test and corrected to 8 percent oxygen for all existing recovery furnaces in the chemical recovery system at the kraft or soda pulp mill, dry standard cubic meters per minute (dscm/min) (dry standard cubic feet per minute (dscf/min));

C_{ref,LK} = Reference concentration of 0.15 g/dscm (0.064 gr/dscf) corrected to 10 percent oxygen for existing kraft or soda lime kilns;

QLK_{tot} = Sum of the average volumetric gas flow rates measured during the performance test and corrected to 10 percent oxygen for all existing lime kilns in the chemical recovery system at the kraft or soda pulp mill, dscm/min (dscf/min);

F1 = Conversion factor, 1.44 minutes-kilogram/day-gram (min·kg/d·g) (0.206 minutes-pound/day-grain (min·lb/d·gr));

BLS_{tot} = Sum of the average black liquor solids firing rates of all existing recovery furnaces in the chemical recovery system at the kraft or soda pulp mill measured during the performance test, megagrams per

day (Mg/d) (tons per day (ton/d)) of black liquor solids fired; and

ER1_{ref,SDT} = Reference emission rate of 0.10 kg/Mg (0.20 lb/ton) of black liquor solids fired for existing kraft or soda smelt dissolving tanks.

* * * * *

■ 4. Section 63.867 is amended by revising paragraph (a)(3) to read as follows:

§ 63.867 Reporting requirements.

(a) * * *

(3) In addition to the requirements in subpart A of this part, the owner or operator of the hog fuel dryer at Weyerhaeuser Paper Company's Cosmopolis, Washington, facility (Emission Unit no. HD-14) must include analysis and supporting documentation demonstrating conformance with EPA guidance and specifications for bag leak detection systems in § 63.864(e)(12) in the Notification of Compliance Status.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[FRL-7530-9]

Georgia: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule.

SUMMARY: Georgia has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA has determined that these changes satisfy all requirements needed to qualify for Final authorization, and is authorizing the State's changes through this immediate final action. EPA is publishing this rule to authorize the changes without a prior proposal because we believe this action is not controversial and do not expect comments that oppose it. Unless we get written comments which oppose this authorization during the comment period, the decision to authorize Georgia's changes to their hazardous waste program will take effect. If we get comments that oppose this action, we will publish a document in the **Federal Register** withdrawing this rule before it takes effect and a separate document in the proposed rules section of this **Federal Register** will serve as a proposal to authorize the changes.

DATES: This Final authorization will become effective on September 16, 2003 unless EPA receives adverse written comment by August 18, 2003. If EPA receives such comment, it will publish a timely withdrawal of this immediate final rule in the **Federal Register** and inform the public that this authorization will not take effect.

ADDRESSES: Send written comments to Narindar M. Kumar, Chief, RCRA Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, The Sam Nunn Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960; (404) 562-8440. We must receive your comments by August 18, 2003. You can view and copy Georgia's application from 8 a.m. to 4:30 p.m. at The Georgia Department of Natural Resources, Environmental Protection Division, 2 Martin Luther King, Jr. Drive, Suite 1154 East, Atlanta, Georgia 30334-4910, and from 8:30 a.m. to 3:45 p.m. EPA Region 4, Library, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960, Phone number (404) 562-8190, Patricia Strougal, Librarian.

FOR FURTHER INFORMATION CONTACT: Narindar M. Kumar, Chief, RCRA Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, The Sam Nunn Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960; (404) 562-8440.

SUPPLEMENTARY INFORMATION:

A. Why Are Revisions to State Programs Necessary?

States which have received final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, States must change their programs and ask EPA to authorize the changes. Changes to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 266, 268, 270, 273 and 279.

B. What Decisions Have We Made in This Rule?

We conclude that Georgia's application to revise its authorized program meets all of the statutory and regulatory requirements established by RCRA. Therefore, we grant Georgia Final authorization to operate its hazardous waste program with the

changes described in the authorization application. Georgia has responsibility for permitting Treatment, Storage, and Disposal Facilities (TSDFs) within its borders and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA). New Federal requirements and prohibitions imposed by Federal regulations that EPA promulgates under the authority of HSWA take effect in authorized States before they are authorized for the requirements. Thus, EPA will implement those requirements and prohibitions in Georgia, including issuing permits, until the State is granted authorization to do so.

C. What Is the Effect of Today's Authorization Decision?

The effect of this decision is that a facility in Georgia subject to RCRA will now have to comply with the authorized State requirements instead of the equivalent Federal requirements in order to comply with RCRA. Georgia has enforcement responsibilities under its State hazardous waste program for violations of such program, but EPA retains its authority under RCRA sections 3007, 3008, 3013, and 7003, which include, among others, authority to:

- Do inspections, and require monitoring, tests, analyses or reports
- Enforce RCRA requirements and suspend or revoke permits
- Take enforcement actions regardless of whether the State has taken its own actions

This action does not impose additional requirements on the regulated community because the regulations for which Georgia is being authorized by today's action are already effective, and are not changed by today's action.

D. Why Wasn't There a Proposed Rule Before Today's Rule?

EPA did not publish a proposal before today's rule because we view this as a routine program change and do not expect comments that oppose this approval. We are providing an opportunity for public comment now. In addition to this rule, in the proposed rules section of today's **Federal Register** we are publishing a separate document that proposes to authorize the State program changes.

E. What Happens if EPA Receives Comments That Oppose This Action?

If EPA receives comments that oppose this authorization, we will withdraw this rule by publishing a document in

the **Federal Register** before the rule becomes effective. EPA will base any further decision on the authorization of the State program changes on the proposal mentioned in the previous paragraph. We will then address all public comments in a later final rule. You may not have another opportunity to comment. If you want to comment on this authorization, you must do so at this time.

If we receive comments that oppose only the authorization of a particular change to the State hazardous waste program, we will withdraw that part of this rule but the authorization of the program changes that the comments do not oppose will become effective on the date specified above. The **Federal Register** withdrawal document will specify which part of the authorization will become effective, and which part is being withdrawn.

F. What Has Georgia Previously Been Authorized for?

Georgia initially received Final authorization on August 7, 1984, effective August 21, 1984 (49 FR 31417), to implement the RCRA hazardous waste management program. We granted authorization for changes to their program on July 7, 1986, effective September 18, 1986 (51 FR 24549), July 28, 1988, effective September 26, 1988 (53 FR 28383), July 24, 1990, effective September 24, 1990 (55 FR 30000), February 12, 1991, effective April 15, 1991 (56 FR 5656), May 11, 1992, effective July 10, 1992 (57 FR 20055), November 25, 1992, effective January 25, 1993 (57 FR 55466), February 26, 1993, effective April 27, 1993 (58 FR 11539), November 16, 1993, effective January 18, 1994 (58 FR 60388), April 26, 1994, effective June 27, 1994 (59 FR 21664), May 10, 1995, effective July 10, 1995 (60 FR 24790), August 30, 1995, effective October 30, 1995 (60 FR 45069), March 7, 1996, effective May 6, 1996 (61 FR 9108), September 18, 1998, effective November 17, 1998 (63 FR 49852), October 14, 1999, effective December 13, 1999 (64 FR 55629), November 28, 2000, effective March 30, 2001 (66 FR 8090), July 16, 2002, effective September 16, 2002 (67 FR 46600), and November 19, 2002, effective January 21, 2003 (67 FR 69690).

G. What Changes Are We Authorizing With Today's Action?

On March 31, 2003, Georgia submitted a final complete program revision application, seeking authorization of their changes in accordance with 40 CFR 271.21. Georgia's revision consists of provisions

promulgated July 1, 2000 through June 30, 2001, otherwise known as RCRA Cluster XI. The Georgia Board of Natural Resources adopted RCRA Cluster XI rules on January 23, 2002, effective February 25, 2002, and December 4,

2002, effective December 30, 2002. We now make an immediate final decision, subject to receipt of written comments that oppose this action, that Georgia's hazardous waste program revision satisfies all of the requirements

necessary to qualify for Final authorization. Therefore, we grant Georgia Final authorization for the following program changes:

Description of Federal requirement	Federal Register	Analogous State authority ¹
Checklist 188, NESHAPS: Final Standards for Hazardous Air Pollutants for Hazardous Waste Combustors; Technical Corrections Hazardous Air Pollutant Standards; Technical Corrections.	65 FR 42292–42302, 7/10/2000 amended, 66 FR 24270–24272, 5/14/01 amended, 66 FR 35087–35107, 7/3/2001	Rule 391–3–11–.07(1). Rule 391–3–11–.22(7)(d). Rule 391–3–11–.10(2). ²
Checklist 189, Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Chlorinated Aliphatics Production Wastes; Land Disposal Restrictions for Newly Identified Wastes; and CERCLA Hazardous Substance Designation and Reportable Quantities.	65 FR 67068–67133, 11/8/2000	Rule 391–3–11–.07(1). Rule 391–3–11–.16.
Checklist 190, Deferral of Phase IV—Standards for PCBs as a Constituent Subject to Treatment in Soil. Land Disposal Restrictions Phase IV—Deferral for PCBs in Soil.	65 FR 81373–81381, 12/26/2000	Rule 391–3–11–.16.

¹ The Georgia Provisions are from the Georgia Hazardous Waste Management Regulations effective February 25, 2002.
² Rule effective December 30, 2002.

H. Where Are the Revised State Rules Different From the Federal Rules?

There are no State requirements in this program revision considered to be more stringent or broader in scope than the Federal requirements.

I. Who Handles Permits After the Authorization Takes Effect?

Georgia will issue permits for all the provisions for which it is authorized and will administer the permits it issues. EPA will continue to administer any RCRA hazardous waste permits or portions of permits which we issued prior to the effective date of this authorization until they expire or are terminated. We will not issue any more new permits or new portions of permits for the provisions listed in the Table above after the effective date of this authorization. EPA will continue to implement and issue permits for HSWA requirements for which Georgia is not yet authorized.

J. What Is Codification and Is EPA Codifying Georgia's Hazardous Waste Program as Authorized in This Rule?

Codification is the process of placing the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Federal Regulations. We do this by referencing the authorized State rules in 40 CFR part 272. We reserve the amendment of 40 CFR part 272, subpart L for this authorization of Georgia's program changes until a later date.

K. Administrative Requirements

The Office of Management and Budget has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993), and therefore this action is not subject to review by OMB. This action authorizes State requirements for the purpose of RCRA 3006 and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes

pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4). For the same reason, this action also does not significantly or uniquely affect the communities of Tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes State requirements as part of the State RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not

make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 (May 22, 2001)) because it is not a significant regulatory action under Executive Order 12866.

Under RCRA section 3006(b), EPA grants a State's application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order.

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 271

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Hazardous waste

transportation, Indians' lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements.

Authority: This action is issued under the authority of 42 U.S.C. 6912(a), 6926, 6974(b).

Dated: July 2, 2003.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

[DA 03-2112; MB Docket No. 03-47; RM-10592]

Radio Broadcasting Services; Orange, VA, Midlothian, VA, Reidsville, NC and South Hill, VA

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Audio Division, at the request of Piedmont Communications, Inc., licensee of FM Station WJMA, Orange, Virginia, and Old Belt Broadcasting Corporation, licensee of FM Station WSKS, South Hill, Virginia, deletes Orange, Virginia, Channel 255A, from the FM Table of Allotments, allots Channel 255B1 at Midlothian, Virginia, as the community's first local FM service, and modifies the license of FM Station WJMA to specify operation on Channel 255B1 at Midlothian. The order further substitutes Channel 270A for Channel 255B3 at South Hill, Virginia, and substitutes Channel 271C0 for Channel 271C at Reidsville, North Carolina. Channel 255B1 can be allotted to Midlothian, Virginia, in compliance with the Commission's minimum distance separation requirements with a site restriction of 12.7 km (7.9 miles) northwest of Midlothian. The coordinates for Channel 255B1 at Midlothian, Virginia, are 37-30-21 North Latitude and 77-38-58 West Longitude. Channel 270A can be allotted to South Hill, Virginia, in compliance with the Commission's minimum distance separation requirements with a site restriction of 12.4 km (7.7 miles) northwest of South Hill. The coordinates for Channel 270A at South Hill, Virginia, are 36-43-35 North Latitude and 78-07-45 West Longitude. Channel 271C0 can be substituted for Channel 271C at Reidsville, North Carolina, at the existing licensed coordinates for FM Station WJMH.

DATES: Effective August 18, 2003.
