BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 063003B]

Marine Mammals; File No. 881-1709

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Jo-Ann Mellish, Ph.D., University of Alaska Fairbanks and Alaska SeaLife Center, 301 Railway Avenue, P.O. Box 1329, Seward, Alaska 99664, has been issued a permit take tissue samples from harbor seals (*Phoca vitulina*) and northern fur seals (*Callorhinus ursinus*) for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668; phone (907)586-7221; fax (907)586-7249.

FOR FURTHER INFORMATION CONTACT:

Amy Sloan or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: On May 1, 2003, notice was published in the **Federal Register** (84 FR 23286) that a request for a scientific research permit to take the species identified above had been submitted by the above-named individual. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR

part 216), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The permit authorizes the collection and receipt of an unlimited number of tissue samples (including, but not limited to, teeth/bone, blubber, muscle, blood, skin, vibrissae, placenta, fetus, reproductive tracts, stomach and intestinal tracts, heart, liver, lungs, kidney and other vital organs) taken from carcasses of harbor seals and northern fur seals that were killed during legal subsistence hunts in Alaska. The purposes of the research are to determine contaminant loads in tissues to study whether exposure to contaminants may be a contributing factor to poor survival and reproduction of these species, and to determine steroid hormone levels in the tissues of these species to develop methods to study the reproductive rate and population structure of marine mammals. Tissues collected from subsistence hunts and from stranded animals may be exported (and re-imported) to Canada for analyses and to other countries world-wide for future opportunistic research is also authorized. The permit has been issued for a five-year period.

Dated: July 11, 2003.

Stephen L. Leathery,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 070903A]

Marine Mammals; File No. 1049-1718

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of application for new permit.

SUMMARY: Notice is hereby given that Kate M. Wynne, University of Alaska Fairbanks, School of Fisheries and Ocean Sciences, 118 Trident Way, Kodiak, Alaska 99615 has applied in due form for a permit to take humpback whales (*Megaptera novaeangliae*), killer whales (*Orcinus orca*), sperm whales (*Physeter macrocephalus*), fin whales (*Balaenoptera physalis*), sei whales (*Balaenoptera borealis*), minke whales (*Balaenoptera acutorostrata*), gray whales (*Eschrichtius robustus*), harbor porpoise (*Phocoena phocoena*), Dall's

porpoise (*Phocoenoides dalli*), harbor seals (*Phoca vitulina*), Pacific white-sided dolphins (*Lagenorhynchus obliquidens*), Northern fur seals (*Callorhinus ursinus*), and Steller sea lions (*Eumetopias jubatus*) for the purposes of scientific research.

ADDRESSES: The permit application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910, (301)713-2289; and

Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668, (907)586-7221.

FOR FURTHER INFORMATION CONTACT: Jill Lewandowski or Gene Nitta, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant requests a five-year scientific research permit to: (1) develop long term sighting histories of individual humpback whales to assess stock structure, life history parameters, feeding behaviors, social behaviors of feeding populations, and population estimates; (2) collect and compare data on killer whale predation in southeastern Alaska, the Gulf of Alaska and Aleutian Islands; and (3) collect data to assess the distribution, abundance, and foraging ecology of fin whales in the Gulf of Alaska. All research will take place in Alaskan waters.

Specifically, the applicant is requesting takes by close approach for photo-identification, behavioral observation, passive acoustic recording, biopsy sampling and incidental harassment. In addition, the applicant is requesting authorization to collect and/or export dead parts from the following prey species during killer whale predation studies: humpback, gray, minke, sei, fin and sperm whales; harbor and Dall's porpoise; Pacific white-sided dolphins; Northern fur and harbor seals; and Steller sea lions.

Written comments or requests for a public hearing on these applications should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)713-0376, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period. Please note that comments will not be accepted by e-mail or by other electronic media.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: July 14, 2003.

Stephen L. Leathery,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

National Marine Sanctuary Program Policy on Permit Applications for Artificial Reef Development

AGENCY: National Marine Sanctuary Program (NMSP), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Interim-final policy; Notice of availability; request for comments.

SUMMARY: The National Marine Sanctuary Program (NMSP) has developed a policy and permitting guidelines for applications to establish artificial reefs within National Marine Sanctuaries. The policy is being used on an interim-final basis during the public comment period. The NMSP is requesting comments on the interim-final policy and permitting guidelines. **DATES:** This notice is effective as an interim-final policy as of July 18, 2003. Comments on the interim-final policy will be accepted until September 16, 2003.

ADDRESSES: You can download a copy of the interim-final policy from the NMSP's Web site at <http://www.sanctuaries.nos.noaa.gov/library/library.html>. You may submit comments by sending an e-mail to artificial.reefs@noaa.gov. You may also request a copy of the NMSP's interim-final policy on artificial reefs and submit written comments on the policy by contacting Debra Malek, National Marine Sanctuary Program, 1305 East West Highway (N/ORM6), 11th floor, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Debra Malek at (301) 713-3125.

SUPPLEMENTARY INFORMATION:

Background

The National Marine Sanctuary Program (NMSP) manages a system of thirteen National Marine Sanctuaries (NMSs or Sanctuaries) that protect special, nationally significant, areas of the marine environment under the authority of the National Marine Sanctuaries Act (NMSA; 16 U.S.C. 14312 *et seq.*). Sanctuaries protect a variety of marine areas including coral reefs, mangrove forests, and seagrass beds in the Florida Keys National Marine Sanctuary; deep-sea canyons, kelp beds, and hardbottom habitats in the Monterey Bay National Marine Sanctuary; and historic shipwrecks in the Thunder Bay National Marine Sanctuary and Underwater Preserve.

In the last few years the NMSP has experienced an increased number of permit applications to establish artificial reefs inside NMS boundaries, particularly the Florida Keys National Marine Sanctuary. Because NMSP regulations generally prohibit placing structures on the seafloor, any individual who wishes to establish an artificial reef inside a NMS must first get approval from the NMSP through the onsite sanctuary manager.

To ensure that applications to establish artificial reefs in sanctuaries are reviewed consistently and in a manner that adheres to the NMSA and NMSP regulations (15 CFR part 922), the NMSP has developed permitting guidelines specific for such applications. The NMSP's intends to apply the guidelines when considering such requests. The guidelines build on lessons learned from past experience permitting artificial reef development within sanctuaries, and applies knowledge from other sources of information. It is intended to guide decision makers as they review proposals for artificial reefs in sanctuaries. It clarifies how decision making criteria contained in NMSP regulations will be applied specifically to permit applications for artificial reef development.

Because the policy and associated permitting guidelines do not place any new requirements on permit applicants or the general public, the NMSP feels it is appropriate to begin applying the policy and guidelines immediately. The NMSP is, however, interested in receiving public comments on the policy and the associated permitting guidelines.

Richard W. Spinrad,

Assistant Administrator for Ocean Services and Coastal Zone Management.
