proposes to amend 14 CFR Part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for Part 71 continues to read as follows:

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9K, Airspace Designations and Reporting Points, dated August 30, 2002, and effective September 16, 2002, is amended as follows:

Paragraph 5000 Class D Airspace.

ASO MS D Columbus Golden Triangle, MS

Golden Triangle Regional Airport, MS (Lat. 33°27’01″ N, long. 88°35’29″ W)

That airspace extending upward from the surface to and including 2,800 feet MSL within a 4.1-mile radius of the Golden Triangle Regional Airport; excluding that airspace within the Columbus AFB Class C airspace area. This Class D airspace area is effective during the specific days and times established in advance by a Notice to Airmen. The effective days and times will thereafter be continuously published in the Airport/Facility Directory.

Issued in College Park, Georgia, on July 10, 2003.

Walter R. Cochran,
Acting Manager, Air Traffic Division, Southern Region.

Robert E. Roberts,
Regional Administrator, Region VIII.

Approval and Promulgation of Air Quality Implementation Plans; State of Colorado; Fort Collins Carbon Monoxide Redesignation to Attainment, Designation of Areas for Air Quality Planning Purposes, and Approval of Related Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On August 9, 2002, the Governor of Colorado submitted a request to redesignate the Fort Collins “moderate” carbon monoxide (CO) nonattainment area to attainment for the CO National Ambient Air Quality Standard (NAAQS). The Governor also submitted a CO maintenance plan. With the maintenance plan, the Governor submitted revisions to Colorado’s Regulation No. 11 “Motor Vehicle Emissions Inspection Program”, and Colorado’s Regulation No. 13 “Oxygenned Fuels Program”. In this action, EPA is proposing approval of the Fort Collins CO redesignation request, the maintenance plan, and the revisions to Regulation No. 11 and Regulation No. 13.

In the Final Rules Section of this Federal Register, EPA is approving the redesignation request and maintenance plan for the Fort Collins CO nonattainment area, along with the revisions to Regulation No. 11 and Regulation No. 13, as a direct final rule without prior proposal because the Agency views this action as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by August 21, 2003.

ADDRESSES: Written comments may be mailed to: Richard R. Long, Director, Air Emissions Inspection Program, 999 18th Street, Suite 300, Denver, Colorado 80202–2466.

Copies of the documents relevant to this action are available for public inspection between 8 a.m. and 4 p.m., Monday through Friday at the following office: United States Environmental Protection Agency, Region VIII, Air Program, 999 18th Street, Suite 300, Denver, Colorado 80202–2466.

FOR FURTHER INFORMATION CONTACT: Tim Russ, Air and Radiation Program, Mailcode 8P–AR, United States Environmental Protection Agency, Region VIII, 999 18th Street, Suite 300, Denver, Colorado 80202–2466.

Telephone number (303) 312–6479.

SUPPLEMENTARY INFORMATION: See the information provided in the Direct Final action of the same title which is located in the Rules Section of this Federal Register.

Robert E. Roberts,
Regional Administrator, Region VIII.

Approval and Promulgation of Implementation Plans Florida: Jacksonville Area Maintenance Plan Update

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve revisions to the State Implementation Plan (SIP) submitted by the Florida Department of Environmental Protection (FDEP) on December 20, 2002. This SIP revision satisfies the requirement of the Clean Air Act (CAA) for the second 10-year update for the Jacksonville area (Duval County) 1-hour ozone maintenance plan. In the Final Rules section of this Federal Register, the EPA is approving the State’s SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before August 21, 2003.

ADDRESSES: Comments may be submitted by mail to: Heidi LeSane, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960.

50 CFR Part 679
[I.D. 071603A]
RIN 0648–AR31
Fisheries of the Exclusive Economic Zone Off Alaska; Allocation of Pacific Cod Among Fixed Gear Sectors

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: The North Pacific Fishery Management Council (Council) has submitted Amendment 77 to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP). This amendment would continue to apportion the Bering Sea and Aleutian Islands Management Area (BSAI) Pacific cod total allowable catch (TAC) among the fixed gear sectors. In addition, the amendment would further split the sector share of the TAC between pot catcher/processors and pot catcher vessels. Amendment 77 is intended to maintain the stability of the fixed gear Pacific cod fishery. Comments from the public are welcome.

DATES: Comments on Amendment 77 must be submitted by September 22, 2003.

ADDRESSES: Comments on the FMP amendments should be sent to Sue Salveson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK, 99802, Attn: Lori Durall, or delivered to room 420 of the Federal Building, 709 West 9th Street, Juneau, AK. Comments may also be sent via facsimile (fax) to 907–586–7557. Comments will not be accepted if submitted via e-mail or Internet. Copies of Amendment 77 and the Environmental Assessment/Regulatory Impact Review/Initial Regulatory Flexibility Analysis (EA/RIR/IRFA) for the amendment may be obtained from the same address.

FOR FURTHER INFORMATION CONTACT: Nina Mollett, 907–586–7462 or Nina.Mollett@noaa.gov.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires that each Regional Fishery Management Council submit any FMP amendment it prepares to NMFS for review and approval, disapproval, or partial approval. The Magnuson-Stevens Act also requires that NMFS, upon receiving an FMP amendment, immediately publish a notice in the Federal Register that the amendment is available for public review and comment.

Amendment 77 was adopted by the Council at its June 2003 meeting. If approved by NMFS, this amendment would replace Amendment 64, which expires on December 31, 2003. Amendment 77 would allocate the 51 percent fixed gear share of the BSAI TAC among its four components as follows:

• 80 percent to catcher/processors using hook-and-line gear;
• 0.3 percent to catcher vessels using hook-and-line gear;
• 15 percent to catcher vessels using pot gear;
• 3.3 percent to pot catcher/processors using pot gear;
• 1.4 percent to catcher vessels under 60 ft length overall (LOA), using either pots or hook-and-line gear.

This represents a change from the status quo because the existing 18.3 percent allocation to pot vessels would be split between the two sectors of that fleet, 15 percent to pot catcher vessels and 3.3 percent to pot catcher/processor vessels. This division would be based on each sector’s historical catch between 1998 and 2001, and reflects the growth in the pot vessel sector in recent years.

Specific provisions for the reallocation of unharvested amounts of these allocations to other vessels using hook-and-line or pot gear would continue to be set forth in regulations.

Public comments are being solicited on the amendment through the end of the comment period stated in this NOA; a proposed rule that would implement the amendment may be published in the Federal Register for public comment following NMFS’ evaluation under the Magnuson-Stevens Act procedures. Public comments on the proposed rule must be received by the end of the comment period on the amendment in order to be considered in the approval/disapproval decision on the amendment. All comments received by the end of the comment period on the amendment, whether specifically directed to the amendment or to the proposed rule, will be considered in the approval/disapproval decision; comments received after that date will not be considered in the approval/disapproval decision on the amendment. To be considered, comments must be received not just postmarked or otherwise transmitted by close of business on the last day of the comment period specified in this NOA.

John H. Dunnigan,
Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
