SUPPLEMENTARY INFORMATION:

Background

Recently the SAE published ARP5526, Aircraft Seat Design Guidance and Clarifications. In an effort to streamline the certification of aircraft seats, the Aircraft Engineering Division, in concert with the Transport Airplane Directorate, issued a June 26, 2003, policy memorandum recommending seat suppliers and seat installers use SAE ARP5526 to the maximum extent possible in the design and approval of aircraft seats. SAE ARP5526 provides clarification and documents existing guidance and practice for complying with some of the requirements of the Technical Standard Orders (TSO), and the applicable certification airworthiness requirements for aircraft seat approvals. Note that SAE ARP5526 does not impose additional criteria to show compliance to the aircraft seat TSOs or the applicable certification requirements.

How To Obtain Copies
