III. Current Actions

ETA seeks to provide both the public and private sectors with the capability to make occupational coding inquiries. Members of the public sometimes need to know where their own occupational

speciality or job title fits within the O*NET-SOC system. Therefore, a continuing need exists for this service.

The occupational analyst uses the information collection in form ETA 741—Occupational Code Assignment—Part A and Occupational Code Assignment—Request for Additional Information to aid them in assigning the most appropriate occupational code and title to the job or specialty described in the information submitted.

The form was changed in order to correlate more closely with the information in the O*NET system. For example, the OCA form requests new information items including skills, physical activities, knowledge areas, interactions, education, and training and experience.

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. B and B Coal Company

[Docket No. M-2003-050-C]

B and B Coal Company, 225 Main Street, Joliett, Tremont, Pennsylvania 17981 has filed a petition to modify the application of 30 CFR 75.334(a)(2), (e), and (f)(3) (Worked-out areas and areas where pillars are being recovered) to its Rock Ridge Slope (MSHA I.D. No. 36-07741) located in Schuylkill County, Pennsylvania. The petitioner requests a modification of the existing standard to permit its former ventilation system and plan to be approved and reinstated for the Rock Ridge Slope anthracite coal mine in lieu of requiring that areas be sealed or ventilated. The petitioner asserts that certain areas of the existing standard would result in risk taking for personnel at the mine. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

2. Rosebud Mining Company

[Docket No. M-2003-051-C]

Rosebud Mining Company, 301 Market Street, Kittanning, Pennsylvania 16201 has filed a petition to modify the application of 30 CFR 75.1100-2(e)(2) (Quantity and location of firefighting equipment) to its Little Toby Deep Mine (MSHA I.D. No. 36-08847) located in Elk County, Pennsylvania. The petitioner proposes to use two (2) portable fire extinguishers or one fire extinguisher of twice the required capacity at all temporary electrical installations in lieu of using one fire extinguisher and 240 pounds of rock dust. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard and would not cause a diminution of safety to the miners.
