Availability for Comment; Draft Test Protocol for Detecting Possible Biohazards in Martian Samples Returned to Earth

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Availability for comment.

SUMMARY: NASA has prepared a draft protocol for the testing and evaluation of samples that may be returned from Mars by future missions in its Mars exploration program. This protocol is designed to provide a model method whereby such samples can be tested for possible biohazards that could be present if life exists on Mars. The protocol has been prepared as a draft to guide the development of both a final protocol to accomplish biohazard and life-detection testing, and to aid in the eventual design of the facility or facilities that will be required to accomplish that testing. Public comment on this draft protocol is sought to provide for refinement of the draft and to provide information for future NASA planning efforts.

A Mars sample return mission is not currently scheduled or funded by NASA, but is being considered as one option in planning future pathways for the exploration of Mars. The draft protocol is a pre-decisional document with respect to planning for a future sample return mission.

This notice informs the public of the availability of the draft protocol for electronic distribution, and solicits public comment.

During the comment period, an electronic version (.pdf) of the NASA Conference Publication, "A Draft Test Protocol for Detecting Possible Biohazards in Martian Samples Returned to Earth," NASA/CP-2002-211842, is available via internet at <http://spacescience.nasa.gov/admin/pubs/marssamples/index.htm>, and a limited number of print copies (one per addressee until the supply is exhausted) is available by writing to the address below.

DATES: Interested parties are invited to submit comments on this document in writing on or before November 28, 2003, to assure full consideration during future planning for Mars exploration missions involving surface or subsurface sample return missions.

ADDRESSES: Written comments should be addressed to Dr. John D. Rummel, NASA Headquarters, Code S, Washington, DC 20546-0001. Comments may also be sent by electronic mail to: marssamples@hq.nasa.gov.

FOR FURTHER INFORMATION CONTACT: Dr. John D. Rummel, Code S, NASA Headquarters, Washington, DC 20546-0001; 202-358-0702; electronic mail: marssamples@hq.nasa.gov.

NUCLEAR REGULATORY COMMISSION

State of Wisconsin: Discontinuance of Certain Commission Regulatory Authority Within the State

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of agreement with the State of Wisconsin.

SUMMARY: On July 1, 2003, Dr. Nils J. Diaz, Chairman of the U.S. Nuclear Regulatory Commission (NRC) signed an Agreement and on July 3, 2003, Governor Jim Doyle of the State of Wisconsin signed the Agreement as authorized by Section 274b of the Atomic Energy Act, as amended (Act). The Agreement provides for the Commission to discontinue its regulatory authority over source, byproduct materials as defined in Section 11e.(1) of the Act and special

nuclear materials (in quantities not sufficient to form a critical mass) in the State of Wisconsin, and for Wisconsin to assume the regulatory authority. Under the Agreement, a person in Wisconsin possessing these materials is exempt from certain Commission regulations. The exemptions have been previously published in the **Federal Register** and are codified in the Commission's regulations as 10 CFR part 150. The Agreement is published here as required by Section 274e of the Act.

FOR FURTHER INFORMATION CONTACT: Lloyd A. Bolling, Office of State and Tribal Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone (301) 415-2327 or e-mail lab@nrc.gov.

The draft Agreement was published in the **Federal Register** for comment once a week for four consecutive weeks (see, e.g. 68 FR 17090, April 8, 2003) as required by the Act. The public comment period ended on May 8, 2003. A total of two comment letters were received and were considered by the NRC staff. After considering the comments, the request for an Agreement by the Governor of Wisconsin, the supporting documentation submitted with the request for an Agreement, and its interactions with the staff of the Wisconsin Department of Health and Family Services, Division of Public Health, the NRC staff completed an assessment of the Wisconsin program. Based on the staff's assessment, the Commission determined on June 30, 2003, that the proposed Wisconsin program for the control of radiation hazards is adequate to protect public health and safety, and that it is compatible with the Commission's program.
