FOR FURTHER INFORMATION CONTACT: Dr. Bradley Carpenter, Code UG, National Aeronautics and Space Administration, Washington, DC 20546, 202/358–0826.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capability of the meeting room. Due to the increased security at NASA facilities, any members of the public who wish to attend this meeting of the Biological and Physical Research Advisory Committee must provide their name, date and place of birth, citizenship, social security number, or passport and visa information (number, country of issuance and expiration), business address and phone number, if any. This information is to be provided at least 72 hours (11 a.m. EDT on August 11, 2003) prior to the date of the public meeting. Identification information is to be provided to Dr. Bradley Carpenter at 202/358–0826 or via e-mail at bcarpenter@hq.nasa.gov. Failure to timely provide such information may result in denial of attendance. Photo identification may be required for entry into the building. Persons with disabilities who require assistance should indicate this in their message. Due to limited availability of seating, members of the public will be admitted on a first-come, first-serve basis. News media wishing to attend the meeting should follow standard accreditation procedures. Members of the press who have questions about these procedures should contact the NASA Headquarters newsroom (202/ 358-1600). The agenda for the meeting is as follows:

## • Performance Measures

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

### June W. Edwards,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (03-087)]

### **Notice of Prospective Patent License**

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Notice of Prospective Patent License.

**SUMMARY:** NASA hereby gives notice that the Keymaster Technologies, Inc., a Delaware corporation, has applied for an exclusive license to practice the inventions disclosed in NASA Case Nos. MFS-31898-1 entitled "Methods for Identification and Verification Using Vacuum XRF System'' and MFS–31886– 1 entitled Methods for Identification and Verification Using Digital Equivalent Data System." Written objections to the prospective grant of a license should be sent to Mr. James J. McGroary, Patent Counsel/LS01, Marshall Space Flight Center, Huntsville, AL 35812. NASA has not yet made a determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

**DATES:** Responses to this notice must be received by August 14, 2003.

## FOR FURTHER INFORMATION CONTACT: Sammy A. Nabors, Technology Transfer Department/CD30, Marshall Space Flight Center, Huntsville, AL 35812, telephone (256) 544–5226.

Dated: July 17, 2003.

### Robert M. Stephens,

Deputy General Counsel. [FR Doc. 03–19369 Filed 7–29–03; 8:45 am] BILLING CODE 7510–01–P

[Notice: (03-085)]

Availability for Comment; Draft Test Protocol for Detecting Possible Biohazards in Martian Samples Returned to Earth

**AGENCY:** National Aeronautics and Space Administration (NASA). **ACTION:** Availability for comment.

**SUMMARY:** NASA has prepared a draft protocol for the testing and evaluation of samples that may be returned from Mars by future missions in its Mars exploration program. This protocol is designed to provide a model method whereby such samples can be tested for possible biohazards that could be present if life exists on Mars. The protocol has been prepared as a draft to guide the development of both a final protocol to accomplish biohazard and life-detection testing, and to aid in the eventual design of the facility or facilities that will be required to accomplish that testing. Public comment on this draft protocol is sought to provide for refinement of the draft and to provide information for future NASA planning efforts.

A Mars sample return mission is not currently scheduled or funded by NASA, but is being considered as one option in planning future pathways for the exploration of Mars. The draft protocol is a pre-decisional document with respect to planning for a future sample return mission.

This notice informs the public of the availability of the draft protocol for electronic distribution, and solicits public comment.

During the comment period, an electronic version (.pdf) of the NASA Conference Publication, "A Draft Test Protocol for Detecting Possible Biohazards in Martian Samples Returned to Earth," NASA/CP-2002-211842, is available via internet at <a href="http://spacescience.nasa.gov/admin/pubs/marssamples/index.htm">http://spacescience.nasa.gov/admin/pubs/marssamples/index.htm</a>, and a limited number of print copies (one per addressee until the supply is exhausted) is available by writing to the address below.

**DATES:** Interested parties are invited to submit comments on this document in writing on or before November 28, 2003, to assure full consideration during future planning for Mars exploration missions involving surface or subsurface sample return missions.

ADDRESSES: Written comments should be addressed to Dr. John D. Rummel, NASA Headquarters, Code S, Washington, DC 20546–0001. Comments may also be sent by electronic mail to: marssamples@hq.nasa.gov.

FOR FURTHER INFORMATION CONTACT: Dr. John D. Rummel, Code S, NASA Headquarters, Washington, DC 20546–0001; 202–358–0702; electronic mail: marssamples@hq.nasa.gov.

## John D. Rummel,

Planetary Protection Officer. [FR Doc. 03–19287 Filed 7–29–03; 8:45 am] BILLING CODE 7510–01–U

## NATIONAL SCIENCE FOUNDATION

Notice of Plan for Collection of Meteorites Issued Under the Antarctic Conservation Act of 1978, as Amended

**AGENCY:** National Science Foundation. **ACTION:** Notice of availability of a plan for collection of meteorites; invitation for comments.

**SUMMARY:** On March 31, 2003, the National Science Foundation (NSF) issued a final rule that authorized the collection of meteorites in Antarctica for scientific purposes only. These regulations implement Article 7 of the
