[Docket No. AD03-11-000]

Southwestern Gas Storage Technical Conference; Notice of Technical Conference and Agenda

August 4, 2003.

As announced in the Notice of Conference issued on June 19, 2003, staff from the Federal Energy Regulatory Commission (Commission) will convene a technical conference on August 26, 2003 at 9 a.m. at the Pointe Hilton Squaw Peak Resort, 7677 N. 16th St, Phoenix, AZ 85020, (602) 997-2626, to discuss issues related to natural gas storage development in the southwestern United States. By order issued June 4, 2003, in Docket Nos. CP02-420-000 *et al.*, the Commission directed that a technical conference be held to begin analysis of relevant market needs and regulatory options available to the Commission to assure the appropriate development of southwestern natural gas storage facilities and markets.¹ The conference Agenda is appended to this Notice.

In the June 19, 2003 Notice, potential presenters were asked to consider the following questions and present their responses at the conference, in order to more clearly focus the discussion:

What potential projects are currently under consideration by the industry for developing gas storage in the Southwest?

Should the Commission initiate an open-season approach for storage development proposals, in which all potential projects are filed at the same time?

What types of storage services are necessary or envisioned?

Who will contract for these services?

What type of storage facilities can physically be constructed (*i.e.* salt cavern, depleted oil/gas reservoirs, aquifer type, *etc.*)?

What environmental and cultural resources issues would affect the

development of gas storage facilities in the Southwest?

What are the concerns of Native Americans in the development of natural gas storage facilities in the southwest?

Transcripts of the conference will be available from Ace-Federal Reporters, Inc. for a fee. The transcript will be available on the Commission's FERRIS system two weeks after the conference.
