NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Advisory Committee on Presidential Libraries Meeting

Notice is hereby given that the Advisory Committee on Presidential Libraries will meet on September 16, 2003, from 1 p.m. to 3:30 p.m., at the Hotel Lombardy in the International Room located at 2019 Pennsylvania Avenue NW., Washington, DC.

The agenda for the meeting will be the Presidential library programs and a discussion of several critical issues.

The meeting will be open to the public.

FOR FURTHER INFORMATION CONTACT:
Richard L. Claypoole, (301) 837-2047.

Dated: August 6, 2003.

Mary Ann Hadyka,
Committee Management Officer.

BILLING CODE 7515-01-U

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (P.L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Pub. L. 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by September 12, 2003. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT:
Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Public Law 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. Applicant—Permit Application No. 2004-008

Patrick Shore, Department of Earth and Planetary Sciences, Washington University, One Brookings Drive, St. Louis, MO 63130.

Activity for Which Permit Is Requested

Enter Antarctic Specially Protected Area

The applicant proposes to enter the Barwick Valley Antarctic Specially Protected Area (ASP # 123) to remove seismic equipment, solar panels, and all other associated equipment. This seismic station was established in December 2001, before the boundaries of the Barwick Valley were modified to include the seismic station's location. Removal of the station will prevent further need to access the Specially Protected Area.

Location

ASP #123—Barwick Valley, Victoria Land

Dates

November 1, 2003—December 31, 2003

2. Applicant—Permit Application No. 2004-009

Robert L. Pitman, NOAA/NMFS, Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, CA 92037.

Activity for Which Permit Is Requested

Take and Import into the U.S.A. The applicant proposes to collect up to 200 biopsy samples (tiny bits of skin—the size of a pencil eraser) from Antarctic

killer whales using a crossbow or modified rifle. The samples will be studied to determine the taxonomic status of the three different morphotypes recently observed in Antarctic waters. These biopsy techniques have been used to sample thousands of whales and dolphins over the years with little or no disturbance to the animals. The applicant will take the samples from a launch or the bow of a larger ship.

Location

At sea in Antarctic waters, continent-wide

Dates

December 15, 2003 to March 31, 2005

3. Applicant—Permit Application No. 2004-010

Paul J. Ponganis, Center for Marine Biotechnology/Biomedicine, Scripps Institute of Oceanography, University of California, San Diego, La Jolla, CA 92093-0204.

Activity for Which Permit Is Requested

Take, Enter Antarctic Specially Protected Areas, and Import into the U.S.A. The applicant proposes to capture and release up to 80 adult and 20 Emperor chicks. Diving physiology studies will be conducted on birds diving at an isolated dive hole in McMurdo Sound. Blood and tissues samples will be taken to examine blood oxygen and nitrogen levels in order to understand how emperors dive so deeply, and yet avoid complications such as decompression sickness (“the bends”), hypoxemia, and shallow water blackout. In addition, antioxidant and oxygen free radical scavenging enzymes will be examined in tissue biopsy samples in order to understand the biochemical mechanisms, which may protect tissues from free radical damage during diving. Diving behavior (stroke frequency and prey capture) will be investigated at the dive hole with application of accelerometer recorders and digital cameras. Penguins will be equipped with one of a variety of microprocessor recorders (depth recorder, P₀₂ recorder, ECG recorder, accelerometer, blood sampler, or digital camera). Any electrodes or catheters are implanted under general anesthesia with techniques developed on prior projects; birds dive with the recorders for 1–2 days after which the microprocessors are removed and downloaded; for the blood sampler, it is removed once a sample is taken in order to allow analyses to be performed. Tissue samples will be obtained under

general anesthesia with biopsy techniques developed on past projects.

In addition the applicant proposes to continue annual censuses at emperor colonies in order to continue monitoring colony status, especially in relation to the B15 iceberg. This will require entrance into the Cape Crozier (ASPA #124) and Beaufort Island (ASPA #105) Antarctic Specially Protected Areas. The applicant also proposes to collect up to 10 frozen emperor penguin carcasses found on the sea ice per year, and return them to the U.S. for anatomical studies.

Location

Cape Washington, Cape Crozier (ASPA #124) and Beaufort Island (ASPA #105).

Dates

September 1, 2003 to January 31, 2006.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-13723]

Notice of Finding of No Significant Impact and Availability of Environmental Assessment for License Amendment of Materials License No. 37-17938-01, Aventis Pasteur, Inc., Swiftwater, PA

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Aventis Pasteur, Inc. for Materials License No. 37-17938-01, to authorize release of its facility in Swiftwater, Pennsylvania for unrestricted use and has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate.

II. EA Summary

The purpose of the proposed action is to allow for the release of the licensee's Swiftwater, Pennsylvania facility for unrestricted use. Aventis Pasteur, Inc. authorized by NRC since April 20, 1978, to use radioactive materials for research and development purposes at the site. On October 10, 2002, Aventis Pasteur, Inc. requested that NRC release the facility for unrestricted use. Aventis Pasteur, Inc. has conducted surveys of

the facility and determined that the facility meets the license termination criteria in subpart E of 10 CFR part 20.

III. Finding of No Significant Impact

The NRC staff has evaluated Aventis Pasteur, Inc.'s request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has prepared the EA (summarized above) in support of the proposed license amendment to terminate the license and release the facility for unrestricted use. On the basis of the EA, NRC has concluded that the environmental impacts from the proposed action are expected to be insignificant and has determined not to prepare an environmental impact statement for the proposed action.

IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML030160030, ML031150153, ML031110041, ML032090292, ML032110545, and ML032120700). Any questions with respect to this action should be referred to Judy Joustra, Nuclear Materials Safety Branch 2, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406, telephone (610) 337-5355, fax (610) 337-5269.

Dated at King of Prussia, Pennsylvania, this 5th day of August, 2003.

For the Nuclear Regulatory Commission.

John D. Kinneman,

Chief, Nuclear Materials Safety Branch 2, Division of Nuclear Materials Safety, Region I.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Sunshine Act; Notice of Meetings

DATE: Weeks of August 11, 18, 25, September 1, 8, 15, 2003.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of August 11, 2003

There are no meetings scheduled for the Week of August 11, 2003.

Week of August 18, 2003—Tentative

There are no meetings scheduled for the Week of August 18, 2003.

Week of August 25, 2003—Tentative

Monday, August 25, 2003

9:30 a.m. Discussion of Investigatory and Enforcement Issues (Closed—Ex. 7 & 5)

Thursday, August 28, 2003.

2:00 p.m. Discussion of Intragovernmental Issues (Closed—Ex. 9)

Week of September 1, 2003—Tentative

There are no meetings scheduled for the Week of September 1, 2003.

Week of September 8, 2003—Tentative

Wednesday, September 10, 2003

1 p.m. Meeting with Organization of Agreement States (OAS) and Conference of Radiation Control Program Directors (CRCPD) (Public Meeting) (Contact: John Zabko, 301-415-2308).

This meeting will be Webcast live at the Web address—<http://www.nrc.gov>

3 p.m. Discussion of Security Issues (Closed—Ex. 1).

Thursday, September 11, 2003.

1:30 p.m. Discussion of Security Issues (Closed—Ex.1).

Week of September 15, 2003—Tentative

There are no meetings scheduled for the Week of September 15, 2003.

*The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (recording)—(301) 415-1292. Contact person for more information: David Louis Gamberoni (301) 415-1651.

The NRC Commission Meeting Schedule can be found on the Internet at: <http://www.nrc.gov/what-we-do/policy/making/schedule.html>

This notice is distributed by mail to several hundred subscribers; if you no longer wish to receive it, or would like to be added to the distribution, please contact the Office of the Secretary, Washington, DC 20555 (301)-415-1969). In addition, distribution of this meeting notice over the Internet system is available. If you are interested in receiving this Commission meeting schedule electronically, please send an electronic message to dkw@nrc.gov.

Dated: August 7, 2003.

D.L. Gamberoni,

Technical Coordinator, Office of the Secretary.
