All nominees are screened for environmental compliance by the States and EPA. Municipalities and institutions desiring to be considered for National awards voluntarily complete the questionnaires and provide design and operating information about their facility or programs. The award nominations are reviewed by State/Regional officials prior to forwarding them for National award consideration. At the National level, award reviews involve Federal officials and review panels comprised of representatives of EPA, State water pollution control agencies and affiliated associations.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The information is collected from approximately 200 respondents at a total cost of \$89,600 per year and 2800 burden hours, including \$52,200 and 1600 burden hours for the respondents' time, and \$37,400 and 1200 burden hours for the States' review time. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

August 1, 2003.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before September 15, 2003. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments regarding this Paperwork Reduction Act

submission to Judith B. Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to *Judith-B.Herman@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202–418–0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION: OMB Control No.: 3060–0725.

Title: Quarterly Filing of Nondiscrimination Reports (on Quality of Service, Installation and Maintenance) by Bell Operating Companies (BOCs).

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 4 respondents; 16 responses.

Estimated Time Per Response: 50 hours.

Frequency of Response: Quarterly reporting requirement.

Total Annual Burden: 800 hours.

Total Annual Cost: N/A.

Needs and Uses: Bell Operating Companies (BOCs) are required to provide nondiscrimination reports on a quarterly basis. Without provision of these reports, the Commission would be unable to ascertain whether the BOCs were discriminating in favor of their own payphones. The report allows the Commission to determine how the BOCs will provide competing payphone providers with equal access to all the basic underlying network services that are provided to its own payphones.

This collection is being submitted as a revision to correct an administrative error that indicated in previous submissions to OMB that this was an annual reporting requirement when it is actually a quarterly reporting requirement. The burden has been adjusted due to less respondents filing quarterly reports.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
