[60Day-03-110]

Agency for Toxic Substances and Disease Registry; Proposed Data Collections Submitted for

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Collection of Publication Assessment Information—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

This project will collect information from Internet users after they order or download a publication from the Web site of the Department of Health and Human Services/Centers for Disease Control and Prevention/National Center for Injury Prevention and Control. NCIPC produces a variety of publications about injury prevention for a range of audiences, from public health professionals to the general public. Publications include reports to Congress, fact books, brochures, research articles, tool kits, and books. Most of these publications are available to the general public, and the chief distribution method is through the

NCIPC Web site, <http://www.cdc.gov/ncipc>. On the Web site, people can order print copies or view electronic copies of the publications.

It is critical for NCIPC to obtain feedback from users of their publications so it can better understand who uses them and how. This will help guide the development of future publications, revisions of current ones, as well as distribution of publications. As part of the effort to gain understanding about the audiences of NCIPC publications, we will collect information through a Web-based form. NCIPC Web site users will have the opportunity to fill out the form after ordering, downloading, or reading online publications through the Web site. The form contains questions about the demographic background of the users, how they found the Web site, how they plan to use the publication, their need for publications in other languages, the degree to which the publication offerings were useful to them, and space for their general comments. The results of the forms will be compiled and studied so NCIPC can better consider the needs of people who use the publications in future publication development, revisions, and distribution plans. There are no costs to respondents.

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
NCIPC Web site users who access or order publications	360,000	1	5/60	30,000

Dated: August 13, 2003.

Nancy E. Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C.

Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Information Collection Procedures for Requesting Public Health Assessments—(0923-0002)—Extension—The Agency for Toxic Substances and Disease Registry (ATSDR).

ATSDR is announcing the request for extension of the OMB-approved Information Collection Procedures for Requesting Public Health Assessments. ATSDR is authorized to consider petitions from the public that request public health assessments of sites where there is a threat of exposure to hazardous substances (42 U.S.C.

9604(i)(6)(B)). The Agency may conduct public health assessments of releases or facilities for which individuals provide information that people have been exposed to a hazardous substance, and for which the source of such exposure is a release, as defined under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA). The general administrative procedures for conducting public health assessments, including the information that must be submitted with each request, is described at 42 CFR 90.3, 90.4, and 90.5. Procedures for responding to petitions, decision criteria, and methodology for determining priorities may be found at 57 FR 37382-89. There are no costs to the respondents other than the time required for preparing a letter and for postage.

ATSDR anticipates approximately 34 requests will be received each year. This estimate is based on the number of requests received in the past five years
