**Needs and Uses:** The Commission adopted a Memorandum Opinion and Order (MO&O) on Remand. This action was taken pursuant to an order issued by the United States Court of Appeals for the District of Columbia in *Fresno Mobile Radio, Inc., et al. v. Federal Communications Commission* ("Fresno"), 165 F. 3d 965 (DC Cir. 1999), wherein the Court remanded for further consideration the Commission's prior decision maintaining the requirement that incumbent wide-area Specialized Mobile Radio (SMR) licensees, licensees who had received "extended implementation" authorizations, must construct and operate all sites and frequencies by the construction deadline. Upon further reconsideration, the Commission allowed incumbent wide-area 800 MHz SMR licensees who were within their construction periods at the time *Fresno* was decided, to satisfy construction requirements similar to those given to Economic Area (EA) licensees in the 800 MHz band, and required that they may

choose to apply the existing site-by-site, frequency-by-frequency construction requirements, or the EA construction requirements. Those who choose the latter were required to certify in a filing with the Commission their compliance with the requirements within the later of 15 days from their applicable construction benchmarks or 60 days from the effective date of the MO&O on Remand. The information will be used by the Commission for the following purposes: (1) To update the Commission's licensing database and thereby facilitate the successful coexistence of EA licensees and incumbents in the 800 MHz SMR band; and (2) to determine whether an applicant is eligible for special provisions for small businesses provided for applicants in the 800 MHz service.

Federal Communications Commission.
