

Archeological, historical, and ethnographic information, along with information provided by the Miami Tribe of Oklahoma, indicate that northern Indiana, including Madison County, and adjacent areas of the Great Lakes region are within the aboriginal and historic homeland of the Miami people. The Miami people are represented today by the Miami Tribe of Oklahoma and the Peoria Tribe of Indians in Oklahoma.

Officials of the University of Pennsylvania Museum of Archaeology and Anthropology have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of 12 individuals of Native American ancestry. Officials of the University of Pennsylvania Museum of Archaeology and Anthropology also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Miami Tribe of Oklahoma and the Peoria Tribe of Indians in Oklahoma. The Peoria Tribe of Indians in Oklahoma has agreed to the repatriation of the human remains to the Miami Tribe of Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Dr. Jeremy Sabloff, the Williams Director, University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA 19104-6324, telephone (215) 898-4051, facsimile (215) 898-0657, before September 19, 2003. Repatriation of the human remains to the Miami Tribe of Oklahoma may proceed after that date if no additional claimants come forward.

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from China of ironing tables and certain parts thereof, provided for in subheading 9403.20.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigation

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

Accordingly, effective June 30, 2003, the Commission instituted antidumping duty investigation No. 731-TA-1047 (Preliminary).

SUPPLEMENTARY INFORMATION:

Background

Satellite/Internet Broadcasting is defined as training/education process transpiring between trainers/teachers at one location and participants/students at other locations via technology. NIC is using satellite broadcasting and the Internet to economically reach more correctional staff in Federal, State and local agencies. Another strong benefit of satellite delivery is its ability to

broadcast programs conducted by experts in the correctional field, thus reaching the entire audience at the same time with exactly the same information. In addition, NIC is creating training programs from its edited 24- and 32-hour satellite/Internet training programs for dissemination through the NIC Information Center.

Purpose

The purpose for funding this initiative is to:

(1) Produce four three-hour satellite/Internet broadcasts, disseminating current information to the criminal justice community;

(2) Product two eight-hour training sessions for site coordinators/facilitators. These sessions will train facilitators from each registered site concerning the outcomes expected and the knowledge and skills needed to facilitate the broadcast and off-air activities for the two training programs described in paragraph (3) below;

(3) Produce two satellite/Internet training programs (one 16 hours in length and one 12 hours in length) that respond directly to the needs identified by practitioners working in criminal justice. The 16-hour satellite/Internet training will be delivered four hours each day from Monday through Thursday and the 12-hour training will be delivered for four hours each day from Tuesday through Thursday.

Scope of Work

To address the scope of work for this project, the following will be needed:

1. *Producer Consultation and Creative Services:* The producer will: (a) Consult and collaborate with NIC's Distance Learning Manager on program design, program coordination, design of field segments and content development; (b) work with each consultant/trainer to develop their modules for delivery using the satellite/Internet format and/or the teleconference format; (c) help develop scripts, graphic design, production elements and rehearsals for each module of the site coordinators' training and the satellite/Internet training programs; and (d) use their expertise in designing creative ways to deliver satellite teleconferencing. The producer will also be responsible for attending planning meetings and assisting in the video of testimonials at conferences.

2. *Pre-Productive Video:* The producer will supervise the production of vignettes to be used in each of the three-hour satellite/Internet broadcast, as well as the 12- and 16-hour satellite/Internet training programs. NIC presenters (content experts) will draft outlines of

the scripts for each vignette. From the outlines, scripts will be developed by the producer (script writing expert) and approved by NIC's Distance Learning Manager. Professional actors will play the parts designated by the script. Story boards for each production will be written by NIC's Distance Learning Manager.

The producer will supervise camera and audio crews to capture testimonials from leaders in the correctional field at designated correctional conferences. The producer will coordinate all planning of the production and post-production for each of the eight satellite/Internet broadcasts.

Video Production: Video production for each teleconference will consist of videotaping content-related events in the field, editing existing video, and videotaping experts for testimonial presentations. It will also include voice-over, audio and music for each video, if necessary. Blank tapes and narration for field shooting will be purchased for each site. The format for all field shooting will be either Beta Cam, DV Pro Digital and/or Mini DVD.

Post Production (Studio): Innovative and thought-provoking opening sequences will be produced for each teleconference. In addition, graphics will be utilized to enhance the learning in each module. The producer will coordinate art direction, lighting, and set design and furniture for all teleconference segments. (Set design should change periodically throughout the award period). The producer will organize and supervise the complete production crew on rehearsal and production days, per the schedules below.

3. *Production:* The production group will set up and maintain studio lighting, adjust audio, and have a complete production crew for the days and hours set forth below. A production crew shall include the following: Director, Audio Operator, Video Operator, Character Generator Operator, Floor Director, Four (4) Camera Operators, Teleprompter Operator, On-Line Internet Coordinator, Make-Up Artist (production time only), and Interactive Assistance Personnel (fax, e-mail, and telephone).
