

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received by PCX. However, the SEC received one comment letter on the proposed rule change.¹²

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the PCX. All submissions should refer to File No. SR-PCX-2003-34 and should be submitted by September 12, 2003.

IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change, as Amended

The PCX requests that the Commission find good cause to accelerate effectiveness of this proposed rule change, as amended, pursuant to Section 19(b)(2) of the Act.¹³ After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of Section 6 of the Act.¹⁴ Specifically, the Commission finds that the proposal is consistent with Section 6(b)(5) of the Act, which requires that the rules of a national securities exchange be designed to promote just and equitable principles of trade, as well as to remove impediments to and perfect the mechanism of a free

and open market, and, in general, to protect investors and the public interest.¹⁵ The Commission believes that the proposed rules are designed to provide investors with a mechanism to help resolve their disputes with broker-dealers in an expeditious manner, and are designed to help ensure the certainty and finality of arbitration awards. Additionally, the Commission finds good cause for approving the proposed rule change prior to the 30th day after the date of publication of notice thereof in the **Federal Register**. Accelerated approval is appropriate in that it will permit the PCX to make its forum for the resolution of such disputes available immediately.

V. Conclusion

It Is Therefore Ordered, pursuant to Section 19(b)(2) of the Act,¹⁶ that the proposed rule change (SR-PCX-2003-34), as amended, is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁷

Deputy Secretary.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Docket OST-02-12148]

Electronic Transmission and Storage of Drug Testing Information Federal Advisory Committee; Meeting

AGENCY: Office of the Secretary, Department of Transportation.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act (Pub. L. No. 92-463, 86 Stat. 770) notice is hereby given that the Department of Transportation (DOT) Electronic Transmission and Storage of Drug Testing Information Federal Advisory Committee will meet for the third time in a public session on September 22-23, 2003, at the Key Bridge Marriott Hotel, 1401 Lee Highway, Arlington, VA 22209, (703) 524-6400, Guest Fax: (703) 524-8964. The purpose of the Committee is to recommend to the Department the type and level of

electronic security that should be used for the transmission and storage of drug testing information, to assess the type of format and methodology that would be appropriate, and to recommend the level and type of electronic signature technology that would support the procedures used in the DOT drug and alcohol program. The Committee has held two previous meetings. A list of the committee members and a copy of both meeting's transcripts are available in the docket posted on the Internet at <http://dms.dot.gov/search/>; the docket number is 12148.

FOR FURTHER INFORMATION CONTACT:

Kenneth Edgell or Minnie McDonald, Office of Drug and Alcohol Policy and Compliance (ODAPC), Office of the Secretary, Department of Transportation at voice (202) 366-3784, fax (202) 366-3897.

SUPPLEMENTARY INFORMATION: Since the beginning of drug testing, the DOT has sought ways to reduce the significant amount of paper documentation generated for the forensic accountability of drug test results. We are now in an era of various electronic capabilities that can further reduce the paper work burden. The transportation industry is asking us to move more in that direction. We want to accommodate this request, but we want to make sure that the integrity and confidentiality requirements of the program are maintained.

The Department made modest changes when 49 CFR Part 40 was updated and republished on December 19, 2000. We permitted greater use of faxes and scanned computer images for reporting test results. Additionally, for negative test results we permitted laboratories to send electronic reports to MROs, provided the laboratory and MRO ensured that the information is accurate and can be transmitted in such a manner as to prevent unauthorized access or release while it is transmitted or stored.

The Department believes that the increased use of electronic reporting is both inevitable and beneficial. At the same time, we want to make sure that there are good, consistent minimum standards for the use of this technology, in order to protect the important integrity and confidentiality requirements of the program. For these reasons, DOT established the Electronic Transmission and Storage of Drug Testing Information Federal Advisory Committee. The purpose of the Committee is to recommend regulatory modifications it deems necessary if Part 40 is to accommodate newer electronic technology. The Committee will assess
