

OSHA must be allowed access to MET's facility and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If MET has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the organization that developed the test standard of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

MET must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, MET agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

MET must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

MET will meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition; and

MET will continue to meet the requirements for recognition in all areas where it has been recognized.

Signed at Washington, DC, this 15th day of August, 2003.

**John L. Henshaw,**

*Assistant Secretary.*
