

significant emotional impairments are not violated. Whenever the annual PAIMI appropriation reaches \$30 million or more, State P&A systems may serve PAIMI-eligible individuals, as defined under the Act [42 U.S.C. at 10802(4)], residing in the community, including their own homes. However, persons residing in public and private residential care or treatment facilities have priority for all State P&A system PAIMI Program services [42 U.S.C. at 10804(d)].

The PAIMI Act requires State P&A systems to file an annual report on their

activities and accomplishments and to provide information on such topics as: numbers of individuals served, types of complaints addressed, and the number of intervention strategies used to resolve the presenting issues, and actual expenditures. Under the Act, there is an Advisory Council which is also required to submit an annual report that assesses the effectiveness of the services provided to, and the activities conducted by, the P&A systems on behalf of PAIMI eligible individuals and their family members. In this submission, CMHS is reinstating

information on fiscal year actual budget expenditures and making primarily minor changes to the annual reports. Also, CMHS will consult with the Center for Medicaid and Medicaid Services on mutual issues related to the use of seclusion and restraint in residential care and treatment facilities. The revised report formats will be effective for the PAIMI report due on January 1, 2005. The annual burden estimate is as follows:

	No. of respondents	No. of responses per respondent	Hours per response	Total hour burden
Annual Program Performance Report	57	1	28	1,596
Activities & Accomplishments			(20)	(1,140)
Performance outcomes			(3)	(171)
Expenses			(2)	(114)
Budget			(2)	(114)
Priority statements & objectives			(1)	(57)
Advisory Council Report	57	1	10	570
Total	114			2,166

This notice also lists the following information:

Title of Proposal: 2004 American Housing Survey—Metropolitan Sample.
OMB Control Number: 2528-0016.

Description of the Need for the Information and Proposed Use: The 2004 American Housing Survey Metropolitan Sample (AHS-MS) provides a periodic measure of the size and composition of the housing inventory in selected metropolitan areas. Title 12, United States Code, sections 1701Z-1, 1701Z-2(g), and 1710Z-10a mandate the collection of this information.

The 2004 survey is similar to previous AHS-MS surveys and collects data on subjects such as the amount and types of changes in the inventory, the physical condition of the inventory, the characteristics of the occupants, the persons eligible for and beneficiaries of assisted housing by race and ethnicity, and the number and characteristics of vacancies.

Policy analysts, program managers, budget analysts, and Congressional staff use AHS data to advise executive and legislative branches about housing conditions and the suitability of public policy initiatives. Academic researchers and private organizations also use AHS data in efforts of specific interest and concern to their respective communities.

The Department of Housing and Urban Development (HUD) needs the AHS data for two important uses.

1. With the data, policy analysts can monitor the interaction among housing needs, demand and supply, as well as changes in housing conditions and costs, to aid in the development of housing policies and the design of housing programs appropriate for different target groups, such as first-time home buyers and the elderly.

2. With the data, HUD can evaluate, monitor, and design HUD programs to improve efficiency and effectiveness.

Agency Form Numbers: Computerized Versions of AHS-62 and AHS-63.
