

Discussion*Proposed Design Criteria*

This airplane will be certified under the requirements of JAR-VLA (Joint Aviation Requirements—Very Light Aircraft) Amendment VLA/92/01 as developed by the Joint Aviation Authority and 14 CFR 21.17.

Additional Requirements: Engine Mount Connection Design Criteria

The Aquila AT01 is a full composite single-engine aircraft with the engine mount fitted to the glass fiber composite fuselage. The airplane will be certified to the requirements of JAR/VLA 865 (Fire protection of flight controls and other flight structure) and JAR/VLA 1191 (Firewalls). However, tests must be performed that demonstrate that the interface between the metallic engine mount and the glass fiber reinforced plastic fuselage withstand a fire for 15 minutes while carrying loads under the following conditions:

(a) With one lost engine mount fitting the loads are distributed over the remaining 3 engine mount fittings. The most critical of these fittings must be chosen for the test.

(1) The loads are:

(i) in Z-direction the mass of the propulsion unit multiplied by a maneuvering load factor resulting from a 30° turn for 15 minutes, superimposed by a maneuvering load of 3 seconds representing the maximum positive limit maneuvering load factor of $n=3.8$ arising from JAR/VLA 337(a).

(ii) in X-direction the engine propulsion force at maximum continuous power for 5 minutes.

(b) The flame to which the component test arrangement is subjected must provide a temperature of 500° C within the target area.

(c) The flame must be large enough to maintain the required temperature over the entire test zone, *i.e.*, the fitting on the engine compartment side.

(d) It must be shown that the test equipment, *e.g.*, burner and instrumentation are of sufficient power, size, and precision to yield the test requirements arising from paragraphs (a) to (c) above. Guidance will be drawn from advisory material AC 20-135 to AC 23-2.

Additional Requirements: Winglets

Since winglets, as a specific structural element, are not addressed in the JAR/VLA requirements, the following is required:

Compliance must be demonstrated to the requirements of JAR 23.445—Outboard fins or winglets.

Issued in Kansas City, Missouri, on August 15, 2003.

SUPPLEMENTARY INFORMATION: The OCC is proposing to extend OMB approval, without change, of the following information collection:

Title: Investment Securities (12 CFR 1).

OMB Number: 1557-0205.

The information collection requirements in 12 CFR part 1 are as follows:

Under 12 CFR 1.3(h)(2), a national bank may request an OCC determination that it may invest in an entity that is exempt from registration under section 3(c)(1) of the Investment Company Act of 1940 if the portfolio of the entity consists exclusively of assets that a national bank may purchase and sell for its own account. The OCC uses the information contained in the request as a basis for determining that the bank's investment is consistent with its investment authority under applicable law and does not pose unacceptable risk.

Under 12 CFR 1.7(b), a national bank may request OCC approval to extend the five-year holding period of securities held in satisfaction of debts previously contracted (DPC) for up to an additional five years. The bank must provide a clearly convincing demonstration of why any additional holding period is needed. The OCC uses the information in the request to ensure, on a case-by-case basis, that the bank's purpose in retaining the securities is not speculative and that the bank's reasons for requesting the extension are adequate, and to evaluate the risks to the bank of extending the holding period, including potential effects on bank safety and soundness.

SUPPLEMENTARY INFORMATION: OTS may not conduct or sponsor an information collection, and respondents are not

required to respond to an information collection, unless the information collection displays a currently valid OMB control number. As part of the approval process, we invite comments on the following information collection.

Title of Proposal: Thrift Financial Report (TFR) and Monthly Cost of Funds

OMB Number: 1550-0023.

Form Number: OTS 1313.

Description: OTS collects financial data from OTS-regulated savings associations and their subsidiaries and holding companies in order to assure their safety and soundness as depositories of the personal monies of the general public. OTS monitors the association's financial position and interest-rate risk so that adverse conditions can be identified promptly.

Discussion of Comments and Requested Form Changes: After publishing in the **Federal Register** on January 23, 2003 (68 FR 3318) notice of its intent to make certain changes to the Thrift Financial Report (TFR) effective March 2004 and reviewing and analyzing all comments, OTS has made the following changes to its information collection request to OMB:

Acceleration of Due Dates: Because the majority of the commenters opposed accelerating the filing due date for the TFR and since OTS does not want to impose additional reporting burden on the industry, OTS will not change the TFR filing due date. OTS will retain the same filing due date that the other banking agencies have for the Call Report, which is 30 days after the end of the quarter. Additionally, the filing due date for Schedules HC (Holding Company) and CMR (Consolidated Maturity/Rate) will remain at 45 days after the close of the quarter.

Average Balance Sheet Data: OTS will collect the average balance sheet data proposed, but at the request of several commenters, OTS will allow all institutions regardless of their asset size to use month-end data in their calculations, rather than requiring the use of daily or weekly balances. The averages will be included in Schedule SI and will be publicly available.

Transactions with Affiliates: Due to public response, OTS will combine its proposed items into two line items: (1) Outstanding balances of covered transactions with affiliates that are subject to quantitative limits (Transactions under section 23A of the Federal Reserve Act) and (2) Activity during the quarter of other covered transactions with affiliates, not subject to quantitative limits (Transactions under section 23B of the Federal Reserve Act). This information will be
